

DEEKSHITHA DHANDAMUDI

BUSINESS ANALYST

New Jersey, USA | 551 465 6493 | dhandamudi07@gmail.com | [LinkedIn](#)

SUMMARY

- **3+ Years of Experience** as a Business Analyst, specializing in healthcare and finance sectors with expertise in data analysis, cloud technologies, and process automation.
- Proficient in **SDLC and Agile methodologies**, managing project lifecycle from requirements gathering to testing and deployment, ensuring timely and successful project delivery.
- Extensive experience with **AWS cloud services, Snowflake**, Python, SQL, Power BI, and Tableau to perform data analytics, predictive modeling, and create interactive dashboards for informed decision-making.
- Skilled in **requirements analysis and documentation**, including creating BRDs, FRDs, RTMs, and user stories to align business objectives with system specifications.
- Expertise in **automating processes** and improving operational efficiency, demonstrated by successful automation of tax reporting systems and population health management programs.
- Strong ability to **collaborate with cross-functional teams**, ensuring effective communication and stakeholder engagement to drive project success and compliance with industry regulations.
- Proven track record in **delivering actionable insights** and facilitating **User Acceptance Testing (UAT)** to meet client expectations, improving system adoption and post-deployment satisfaction.

SKILLS

Methodology	SDLC, Agile, Waterfall, Kanban
Programming Languages	Python, R
Database Management	SQL, MS XS, MS Excel, Requirements Traceability Matrix (RTM)
Documentations	FRD, BRD, SRS, User Guide, User Stories, Use cases
Project Management Tools	MS Project, MS Excel, MS SharePoint, Asana, Trello, Rally
Visualization Tools	Tableau, Power BI,
Business Analysis	Cost/benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis
Tracking Tools	Jira, HP Quality Center, Rational ClearQuest,
Cloud Computing Platforms	AWS, Azure, Snowflake
ERP Planning & CRM	SAP, MS Dynamics Nav, Salesforce, HubSpot
Technical Skills	KPI, UAT, Test Plans, Alteryx, Requirement gathering, Google Analytics, Data Analysis, MS Visio, JAD, MS 360, Web XP, Software development & testing, Data Modelling, Database Knowledge, Business Intelligence (BI) Tools, Process Mapping, User Experience (UX) Understanding, Quality Assurance (QA) Knowledge, Prototyping
Soft Skills	Time management, Leadership, Management, Problem-solving, Negotiation, Decision-Making, Documentation, and Presentation, Verbal communication, Sprint Planning

EXPERIENCE

Business Analyst | Pfizer, NY | May 2023-Present

- Implemented the **Software Development Life Cycle (SDLC)** methodology to oversee the development of the Population Health Management Program. This ensured structured planning, development, testing, and deployment, optimizing system performance and compliance.
- Utilized **Snowflake** to securely store and process large healthcare datasets, ensuring scalability and high availability for the Population Health Management Program's data analytics and predictive modeling.
- Analyzed and interpreted large datasets **using Python**, developing predictive models to forecast patient health risks and support proactive care management strategies for at-risk populations.
- Utilized **MS Excel** for data analysis and reporting, providing actionable insights and visualizations to stakeholders for data-driven decision-making.
- Utilized **Power BI** to design interactive dashboards and reports, enabling stakeholders to visualize key health metrics, track patient outcomes, and make data-driven decisions for improved population health management.
- Integrated **Salesforce** with the Population Health Management Program to streamline patient data management, improve care coordination, and enhance communication between healthcare providers and patients.
- Conducted **Cost/Benefit** Analysis to evaluate the program's effectiveness, identify improvement opportunities, and deliver recommendations to enhance patient care and reduce costs.

- Conducted **SWOT analysis** to identify strengths, weaknesses, opportunities, and threats within the Population Health Management Program, providing strategic insights that informed decision-making and drove improvements in patient care and program efficiency.
- Managed project tasks and tracked progress **using JIRA**, ensuring smooth collaboration across cross-functional teams. This facilitated timely delivery of the Population Health Management Program and aligned efforts with project goals.
- Managed compliance with **HIPAA** and other healthcare regulations, ensuring that patient data privacy and security standards were met throughout the development and execution of the program.

Business Analyst | HCL Tech, India | Jun 2020-Jul 2022

- Automated tax reporting processes using **Python**, ensuring compliance with complex local and international tax laws while streamlining data processing and submission workflows.
- Collaborated with **cross-functional teams** including tax advisors and finance departments to ensure accurate understanding of tax calculation methods and reporting criteria.
- Developed and maintained **Requirements Traceability Matrix (RTM)** to track all tax reporting requirements and ensure alignment with business objectives.
- Developed **FRDs and BRDs** to support the development of the tax automation system, ensuring clear and precise communication of system specifications, which led to a 25% reduction in development time and improved collaboration.
- Created detailed **user stories** and comprehensive **user guides**, resulting in a 30% reduction in user onboarding time and a 25% improvement in system adoption and satisfaction among end-users.
- Utilized **MS Visio** to create detailed process flow diagrams and system architecture models, streamlining communication across teams and reducing project planning time by 25%.
- **Utilized SQL** to extract, manipulate, and integrate financial data from multiple sources, ensuring accurate and efficient tax reporting automation.
- Spearheaded the **User Acceptance Testing (UAT)** phase, ensuring tax automation solutions met client expectations and compliance standards, resulting in a 20% decrease in post-deployment issues and a 95% client satisfaction rate.
- Leveraged **Tableau** to develop tax reporting dashboards, delivering real-time insights that improved decision-making, reduced report generation time by 40%, and increased stakeholder engagement by 30%.
- Facilitated sprint planning and agile methodologies to deliver the tax automation solution on time, coordinating with development teams using **Rally**.
- Deployed the tax reporting automation system **on Azure cloud platforms**, ensuring scalability and security, which improved system performance by 35% and reduced infrastructure costs by 20%.
- Conducted **gap analysis** and documentation reviews, ensuring tax automation processes adhered to regulatory standards and business requirements.

CERTIFICATIONS

Certification of Business Analytics (Office of graduate Studies)

EDUCATION

Master of Science in Management Science – New Jersey Institute of Technology, Newark, New Jersey, USA

Bachelor of Business Administration – Gitam University, Rudraram, Hyderabad, India
