PERSONAL SUMMARY

Accomplished Software Developer with expertise in designing, developing, and optimizing **web applications** using **Java, React.js, Spring Boot, JSP, and Hibernate**. Proficient in **backend and frontend development**, with a strong foundation in **Data Structures & Algorithms (DSA), OOPS, Multithreading, and Exception Handling**. Skilled in building **scalable, high-performance applications** and integrating **RESTful APIs** to ensure seamless system interoperability. Adept at working in **Agile environments**, collaborating closely with cross-functional teams, product managers, and stakeholders to deliver robust software solutions. Experienced in **database management with MySQL** and **version control using Git and GitHub**. Passionate about **software architecture, problem-solving, and continuous learning** to drive innovation in software development. Holding a **master's in information systems and technologies**, I bring strong problem-solving skills, strategic thinking, and a passion for continuous learning, ensuring scalable, high-quality cloud solutions.

EDUCATION

University of North Texas, University in Dallas, Texas

August 2023 – December 2024

Master of Science in Information Systems and Technology

GPA: 3.25/4.0

Relevant Coursework: Information Systems Development, Information Security Management, Advanced Machine learning, Distributed Systems, Semiconductor Testing Techniques, Neural Networks and optimization.

Sri Venkateswara University, India

July 2016 – May 2020

Bachelor of Technology in Mechanical Engineering

SKILLS & TOOLS

- **Programming Languages:** C, C++, Python, Java, JavaScript, TypeScript
- **Frontend Technologies:** JavaScript, ReactJS, SvelteJS, HTML5, CSS3, TypeScript, Node JS
- **Backend & Frameworks:** ASP.NET, ASP.NET Core (Web API, MVC), Spring Boot
- **Graphics/Web Technologies:** WebAssembly, WebGL, GLSL, Three.js
- **UI/UX Design:** Responsive Design, Design Systems, UI/UX Principles, Figma, Sketch
- **Cloud Platforms:** AWS (EC2, S3, Lambda), Azure, DevOps
- **Testing Tools:** Selenium, Postman, NUnit, Cucumber, Robot Framework, SoapUI,
- **Version Control & CI/CD:** Git, GitHub, Jenkins, Azure DevOps
- **Other Tools:** Agile Methodologies, REST API Testing, Web Performance Optimization, Eclipse, Vs Code, SDLC, STLC, Waterfall Development, IntelliJ, VM Ware

PROFESSIONAL EXPERIENCE

Tata Consultancy Services, Bengaluru, India.

February 2021 – May 2023

Software Development Engineer

- Led the development of **user interfaces** for web applications using **React, HTML, and CSS**, ensuring seamless responsiveness and adherence to **UI/UX design principles**.
- Built high-performance tools using **C++ and Web Assembly**, optimizing browser-based rendering, improving application performance by **25%**.
- Optimized web applications for **multiple browsers, utilizing WebGL** and efficient rendering techniques, enhancing **visual performance** and reducing load times.
- Collaborated with backend teams to **synchronize API endpoints** with frontend features, **ensuring smooth functionality across** systems.
- Automated testing for web applications using **Selenium and Python**, reducing **manual testing efforts by 50%** and increasing **overall test coverage**.
- Implemented cloud-based testing solutions on **AWS and Azure**, ensuring reliable and **scalable testing infrastructure for SaaS products**.
- Contributed to the **continuous improvement of design systems**, ensuring consistent **UI elements across products**.

Bharat Heavy Electronics Limited, India.

November 2020 – January 2021

Web Developer

- Automated **UI testing for browser-based applications** using **Selenium and Python**, improving release cycles and reducing bugs.
- Assisted in building rendering systems using **C++ and** integrating them into **web applications**, ensuring **smooth user interaction**.
- Improved database performance through optimization and thorough testing with **MSSQL and Oracle**.

Solin Technologies, Bengaluru, India.

January 2019 – December 2019

- Designed and developed **UI components** for an e-commerce application using React, JavaScript, and CSS, improving user interaction by **30%**.
- Conducted **API testing with Postman and SoapUI**, ensuring smooth integration with **backend systems and accurate data handling**.

PROJECTS

NextGen College Alumni Network: Social Media Platform 2 | **HTML, CSS, JavaScript, React.js, Node.JS, MongoDB**

- Developed a scalable web application with a focus on **intuitive UI using React and backend functionality with Node.js and MongoDB**, Integrated the system with a React-based frontend to ensure a smooth user experience.

CERTIFICATIONS

- AWS Knowledge Cloud Essentials.
- Problem Solving (Advanced) by Hackerrank.
