PROFESSIONAL SUMMARY

Results-driven **DevOps Engineer** with 2 years of hands-on experience in automating, configuring, and deploying applications across multiple environments. Strong expertise in CI/CD pipelines, containerization using Docker & Kubernetes, cloud infrastructure (AWS), and scripting. Committed to improving operational efficiency and delivery speed through infrastructure as code and robust monitoring systems.

TECHNICAL SKILLS

- **CI/CD Tools:** Jenkins, GitHub Actions, GitLab CI
 - **Cloud Platforms:** AWS (EC2, S3, IAM, RDS), Azure (basic)
 - **Containers:** Docker, Kubernetes, Helm
 - **IaC Tools:** Terraform, AWS CloudFormation
 - **Monitoring & Logging:** Prometheus, Grafana, ELK Stack
 - **Version Control:** Git, GitHub, Bitbucket
 - **Scripting:** Bash, Python
 - **Configuration Management:** Ansible
 - **OS & Servers:** Linux (Ubuntu/CentOS), Windows Server
-

PROFESSIONAL EXPERIENCE

DevOps Engineer

Avens Group of technologies

June 2022 – Dec 2022

- Built and maintained automated CI/CD pipelines using Jenkins and GitHub Actions for microservices-based applications.
- Created and managed infrastructure on AWS using Terraform and CloudFormation templates.
- Deployed and orchestrated containerized applications using Docker and Kubernetes on EKS.
- Implemented centralized logging using the ELK stack and proactive monitoring with Prometheus and Grafana.
- Automated routine tasks and server configurations using Ansible and shell scripting.

- Worked closely with development and QA teams to streamline deployment cycles and reduce downtime by 40%.

Associate DevOps Engineer (Intern)

Palle Technologies Inc., Hyderabad, India

June 2021– Dec 2021

- Assisted in the design and deployment of CI/CD pipelines using GitLab CI for Node.js and Python-based projects.
 - Monitored system health and performance metrics using CloudWatch and created custom dashboards.
 - Created and tested Docker files and Helm charts to deploy scalable applications in Kubernetes clusters.
 - Maintained Git repositories, branching strategies, and access control to ensure secure code management.
 - Documented operational procedures and created runbooks for repetitive tasks.
-

EDUCATION

Master's In Information Technology

Campbellsville University, Louisville, KY

Graduated: March 2025

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (2023)
 - Docker Certified Associate (2023)
-

PROJECT HIGHLIGHTS

- **Microservices Deployment with Kubernetes:**
Built a production-grade Kubernetes cluster on AWS (EKS) to deploy containerized applications with autoscaling and monitoring setup.
- **CI/CD Pipeline Automation:**
Reduced deployment time by 60% by implementing end-to-end automation using Jenkins integrated with SonarQube, Docker, and AWS ECS.
