Entry-Level Business Analyst | Data Enthusiast | SQL & Power BI Learner

Professional Summary

Recent Computer Science graduate with hands-on experience in data analysis, dashboard creation, and stakeholder collaboration. Eager to launch a career in business analytics with a strong foundation in Excel, SQL, and Power BI. Proven ability to gather requirements, document workflows, and support cross-team projects. Passionate about solving business problems using data.

Education

University of Missouri – Kansas City, MO
M.S. in Computer Science, Aug 2023 – May 2025

Sir C R Reddy College Of Engineering – Eluru, India
B.Tech in Information Technology, Aug 2018 – May 2022

Skills

Tools & Technologies: Excel, Power BI, Tableau, JIRA, Postman, MS Office, SQL, Python, Git

Soft Skills: Communication, Analytical Thinking, Team Collaboration, Documentation, Problem Solving

Other: Requirements Gathering, User Stories, Workflow Documentation, Agile Basics

Projects & Academic Experience

AI-Powered Supply Chain Analysis (N8N, PostgreSQL, Python)

- Documented business requirements and workflows for a supply chain dashboard project
- Used AI-generated scripts to clean and transform data for calculating KPIs (OTIF, Line Fill Rate)

Traffic Violation Dashboard (Power BI, Tableau)

- Created interactive dashboards summarizing 1M+ traffic records with filters by time, location, and type
- Gathered visualization requirements from mock stakeholders and translated into user-friendly KPIs

Personal Finance Management Tracker (Excel, SQL, Tableau)

- Built a budget analysis tool using SQL queries and Tableau dashboards
- Visualized spending trends and recommended savings strategies to users

Experience

Jumio Corporation – Research Engineer | Lenexa, KS | Jun 2024 – Present

- Designed structured datasets using SQL & Python for analytics teams
- Automated parts of the data pipeline and validated ML dataset quality

Innodatatics – Data Analyst | Hyderabad, India | Sep 2022 – Jul 2023

- Worked with Sales and Finance teams to automate reports and dashboards
- Cleaned 10K+ records/month using Excel and SQL; created BRDs and documentation
- Participated in requirement-gathering and stakeholder review sessions
