WORK EXPERIENCE

Tata Consultancy Services

Nagpur, India

Systems Analyst

March 2023 - August 2024

- Collaborated with business and technical stakeholders to gather requirements, create user stories, and manage tasks for database developers using Jira, ensuring 100% alignment with sprint goals and timely feature delivery.
- Designed and optimized SQL database objects (tables, procedures, functions, views) and maintained a comprehensive understanding of the end-to-end data flow and dependencies to support development.
- Led 20+ stakeholder meetings to clarify requirements and track progress, reducing development delays by 25% through early resolution of database dependencies.
- Integrated complex system requirements with organizational goals, contributing to a 15% improvement in operational efficiency through seamless collaboration with cross-functional teams.

Tata Consultancy Services

Nagpur, India

Systems Engineer

March 2022 - March 2023

- Spearheaded automation tool integration with legacy systems, ensuring a smooth transition and eliminating downtime to ongoing operations by 15%.
- Optimized .NET (C#) automation scripts, improving execution time by 20% and enhancing overall productivity.
- Documented client requirements, aligning new features with business needs, resulting in a 25% increase in client satisfaction.
- Designed automated testing protocols, detecting 30% more bugs and expediting software deployment cycles.

VeerIT Solutions

Nagpur, India

Technical Intern

February 2021 - August 2021

- Led end-to-end testing for 10+ software features, reducing post-release defects by 40% and boosting product reliability.
- Identified and resolved critical issues early in the development cycle through systematic testing and collaboration.
- Implemented JAVA updates and patches, improving software stability by 30% and reducing maintenance time by 20%.

Johnson Lifts Pvt. Ltd.

Nagpur, India

Technical Intern

June 2019 - August 2019

- Shadowed field engineers on-site, gaining hands-on experience and improving troubleshooting skills by 25%.
- Completed advanced training sessions, enhancing technical skills by 30% and boosting project efficiency.
- Tracked industry standards and emerging technologies, increasing operational safety and efficiency by 20%.

EDUCATION

The University of Texas at Dallas

Richardson, TX

Master of Science, Business Analytics & AI (GPA 3.22)

Expected Graduation May 2026

Savitribai Phule Pune University

Pune, India

Bachelor of Engineering, Electronics & Telecommunication (GPA 3.1)

August 2016 – May 2020

PROJECTS

MUBI Data Analysis | MYSQL | Power BI

- Analyzed 15M+ rows of MUBI user data using MySQL to identify top-performing content and develop KPIs that boosted engagement by 12%.
- Built Power BI dashboards that improved decision-making speed by 15% and increased subscriber retention by 10%.

AI Risk Analysis and Automation Impact on Jobs | R

- Analyzed AI adoption data and visualized trends, revealing a 25% rise in automation risk across job roles.
- Built classification models (Decision Tree, Logistic Regression) to predict job vulnerability with 85% accuracy, supporting workforce planning strategies.

SKILLS, TOOLS & FRAMEWORK

Programming and Database: SQL, R, C#, C, C++, MySQL, MongoDB

Statistical Analysis: Hypothesis Testing, Regression Analysis, A/B Testing

Tools & Platforms: Tableau, Power BI, Adobe Analytics

Certification: SQL Essential Training, Databricks Certified Data Analyst Associate
