Purdue University, West Lafayette, Indiana (GPA – 3.73 / 4) (August 2023 - December 2024)

Master of Science in Civil Engineering, Concentration in Construction Engineering - Leadership, Entrepreneurship, and Management

Gujarat Technological University, Ahmedabad, India (GPA – 3.78 / 4) (August 2019 - April 2022)

Bachelor of Engineering in Civil Engineering

Gujarat Technological University, Ahmedabad, India (GPA – 3.35 / 4) (August 2016 - April 2019)

Diploma in Civil Engineering

SKILLS, LICENCES, AND EXPERTISE:

Software Skills:

Primavera P6 | AutoCAD | Bluebeam | HeavyBid | HeavyJob | Procore | MS Project | MS Excel | MS Word | Navisworks | Revit

Technical Skills, licenses, Courses:

OSHA 10 Certified | RFI/Submittal Management | Schedule Development | Cost Tracking & Estimation | Document Control | Plan/Spec Review | Subcontractor Coordination | Job Safety Analysis | Quantity Takeoff | Procurement of materials

WORK EXPERIENCE:

Field Engineer Intern | McLean Contracting Company, Chesapeake, VA (May 2024 - August 2024)

- Managed accurate logs and documentation for a \$100 million I-64 bridge project, ensuring work completion with regulatory requirements and project specifications.
- Assisted the estimation team on a bid for a 220-foot bridge project, developing skills in reading construction plans, performing takeoffs, estimating calculations, and using tools like Primavera P6 and HeavyBid.
- Conducted routine inspections and maintained compliance for the Stormwater Pollution Prevention Plan (SWPPP) on the Hampton River bridge project, ensuring all erosion control measures were properly installed, functioning, and in accordance with state and local environmental regulations.
- Collaborated with the superintendent and project manager in developing weekly schedules and managing project logs.
- Managed project documentation, including cost codes, daily logs, and safety reports, enabling traceability and accountability.
- Facilitated field coordination and communication with multiple subcontractors to prevent scope conflicts and ensure execution aligned with design intent.
- Logged and recorded equipment hours, counting weekly usage logs to optimize maintenance schedules.

Project Engineer | Rajkamal Builders Infrastructure Pvt. Ltd., Gujarat, India (April 2022 - March 2023)

- Worked on \$12 million bridge project, effectively meeting project milestones on time.
- Developed an excel based tool to match government contract scopes with AA approved contractors' past work, enabling quick identification of eligible bidders.
- Analyzed job cost reports to identify cost-saving opportunities, achieved cost reduction by subcontracting scaffolding setup and takedown for improved efficiency.
- Interpreted drawings and specifications, RFI, and submittals, overseeing compliance with safety standards, project design, and local regulations.

Construction Field Engineer Intern | Harikrishna Construction, Gujarat, India (January 2022 - April 2022)

- Addressed RFIs and resolved project challenges in subcontractor, OAC, and BIM Coordination meetings, preventing project delays for \$2 million G+12 story commercial and residential project.
- Oversaw punch walks with clients, created punch lists, and performed daily safety audits by safety plans, upholding safety compliance and record-keeping.
- Managed submittals for waterproofing, mechanical equipment, and structural drawings, preventing delays.

PROJECTS:

Business Case and Implementation Roadmap: 3D Printing Division at Suffolk Construction: Formulated a comprehensive business plan for Suffolk Construction's expansion into 3D-printed residential housing, including market analysis, financial projections, and risk management strategies, projecting \$31.2 million in annual revenue by 2032.

Analysis of Mumbai Metro Line 3: Directed comprehensive analysis for Mumbai Metro Line 3, employing Fishbone Diagram, CPM, Linear Scheduling, and Quality Management Systems to elevate compliance and timely project delivery.
