Professional Summary

Certified Data Analyst with expertise in SQL, R Programming, and data visualization. Experienced in data transformation, ETL, and analytics to support business goals and insights. Skilled in collaborating with cross-functional and business-facing teams to gather requirements. Seeking roles in data analytics or business analytics, business intelligence to apply both analytical and strategic thinking in a dynamic environment.

Technical Skills

- **Data Analysis & Querying:** SQL (Joins, CTEs, Window Functions, Subqueries), R (tidyverse, ggplot2, dplyr), Python (Pandas, NumPy, Matplotlib)
 - **Data Visualization & Reporting:** Tableau (dashboards, storytelling, Calculated Fields), Power BI (Data Modeling, DAX, Power Query), Excel (Pivot Tables, VLOOKUP, Charts), Google Data Studio / Google Charts
 - **Databases & Big Data Tools:** Google BigQuery, MySQL
 - **Data Preparation & Processing:** Data Cleaning, Wrangling, Transformation, ETL Pipelines, Spreadsheet Automation (Excel & Google Sheets), Data Validation & Quality Assurance
 - **Productivity & Collaboration:** Microsoft Office (Excel Advanced, PowerPoint), Workflow Documentation
 - **Core Competencies:** Analytical Thinking, Problem Solving, Business Insights, Cross-functional Collaboration, Communication & Data Storytelling
-

Data Analytics Projects

Bellabeat Smart Device Analysis (*Health & Fitness Insights*)

- Conducted exploratory data analysis (EDA) on Fitbit data to uncover user health and activity trends. Applied R (tidyverse, ggplot2) for statistical analysis and data visualization.
- Provided marketing insights recommending user engagement campaigns tied to fitness tracking patterns

Cyclistic Bike-Share Analysis

- Analyzed usage patterns of casual riders vs. annual members to identify opportunities to increase memberships.
 - Recommended targeted weekend promotions, referral discounts, and casual-to-member conversion campaigns. Provided data-driven strategies that could increase membership conversions by 10–15% if implemented.
-

Work Experience

Career Gap | Relocation & Professional Development | Dec 2023 - Feb 2025

- Relocated to the U.S. and focused on professional development in data analytics. Completed **Google Data Analytics Certificate (Coursera)** and **IBM Data Analysis with Python (SkillsBuild)**
- Conducted independent projects including Cyclistic Bike-Share Analysis and Bellabeat Smart Device Insights using SQL, R, Python, and Tableau.

Application Developer | IBM | Jan 2021 - Nov 2023

- Developed and optimized SQL queries to extract, analyze, and validate large datasets, improving reporting accuracy and supporting data-driven decision-making.
- Designed and maintained ETL processes to ensure clean, structured data pipelines for data transformation and loading, ensuring data integrity for business analysis.
- Automated data extraction and processing using Linux shell scripting, reducing manual workload and improving turnaround time for insights. Collaborating with cross-functional and business-facing teams to gather requirements and deliver actionable insights.

Engineer Trainee | Cognitive Machines | Oct 2019 - Feb 2020

- Developed an Android application for face detection in images/video frames, allowing users to apply blur, color or pixelation to detected faces.
- Enabled users to edit and save the images with required modifications. Additionally, implemented in-app data analytics to track user interactions, generating insights to improve feature usage.

Education

Andhra University, Visakhapatnam | 2018 | 85%
Master's of Technology, Computer Science

Gayatri Vidya Parishad College of Engineering, Visakhapatnam | 2016 | 72.8%
Bachelor's of Technology, Computer Science

Certifications

Google Data Analytics Certificate | Feb 2025

Skills: Data Cleaning, SQL, R, Spreadsheets, Data Visualization, Data Ethics, Data-driven Decision Making, Dashboards & Reporting, Statistical Analysis, Business Intelligence

Data Analysis with Python – IBM Skills Build | Jun 2024

Skills: Python (Pandas, NumPy, Matplotlib), Data Cleaning & Wrangling, Exploratory Data Analysis, Statistical Analysis, Data Visualization, Basic Machine Learning concepts.
