EDUCATION

Lindsey Wilson College

Masters of Science in Information Technology and Management

August 2023 - August 2024

Columbia, KY

Amrita Vishwa Vidyapeetham

Bachelors of Technology in Computer Science and Engineering

July 2018 - June 2022

Amritapuri, India

EXPERIENCE

DELOITTE

Data Analyst

August 2023 – Current

Mountain View, USA

- Built and maintained **Tableau** dashboards that made it easier for teams to track sales and marketing performance, cutting manual reporting time by 40% and increasing data adoption across teams.
- Optimized **SQL queries** and fine-tuned **ETL pipelines** using tools like **Python** and **dbt**, reducing query execution time by 30% and ensuring stakeholders had fast, reliable access to critical data.
- Worked closely with sales, marketing, and finance teams to identify key metrics and uncover insights, leading to a 15% improvement in campaign performance, leveraging tools like **Tableau** and **Excel**.
- Developed predictive models using **Python** and **scikit-learn** to forecast revenue trends, improving forecasting accuracy by 20% and helping leadership make more informed decisions.
- Automated data validation and reporting workflows using **Python** and **Airflow**, reducing manual errors by 25% and ensuring teams had access to accurate, high-quality insights.
- Created real-time alerts and monitoring systems using **Python** and **SQL**, allowing teams to react to critical KPI changes 50% faster and avoid potential roadblocks.
- Led quarterly business reviews and retrospectives, providing data-backed insights through **Tableau** and **PowerPoint**, contributing to a 10% increase in sales efficiency and better strategic planning.
- Wrote **Python** scripts to clean and transform raw data, reducing processing time by 35% and making reports more consistent and reliable using tools like **Pandas** and **SQL**.

HONEYWELL

Data Analyst

January 2021 – July 2022

Bangalore, India

- Developed custom **SQL** queries to extract key business metrics from multiple data sources, reducing data preparation time by 35% and enabling faster, more accurate reporting.
- Collaborated with the **Data Engineering** team to integrate new data sources into the **Snowflake** data warehouse, increasing data accessibility and improving reporting capabilities across departments.
- Leveraged **Python** and **Jupyter** to analyze and visualize customer behavior, uncovering actionable insights that contributed to a 12% increase in customer retention.
- Led the automation of sales forecasting models using **R** and **Shiny**, providing stakeholders with dynamic, real-time forecasts that improved planning accuracy by 18%.
- Implemented data governance protocols using **Alation** to standardize metrics and ensure consistent data usage across departments, leading to a 20% improvement in data quality.
- Built custom data pipelines with **Apache Spark** to handle large-scale data processing, reducing batch processing time by 40% and ensuring timely delivery of business-critical insights.
- Collaborated with the Product team to build and maintain dashboards in **Google Data Studio**, streamlining product performance tracking and helping identify trends that improved product adoption by 15%.

TECHNICAL SKILLS

Programming Languages: Java, C, C#, Python, SQL, BASH.

Databases: Microsoft SQL Server, Postgre SQL, Elasticsearch, MySQL, MongoDB.

Cloud Technologies: AWS (EC2, S3, RDS, Cloudwatch, ELB, Route 53, IAM), Docker, Kubernetes.

Tools: Git, Jenkins, Redis, JUnit, Postman, Grafana.

Frameworks: Spring (Core, Boot, MVC, Data, Batch), Apache Kafka, JPA, Hibernate.

Architectures: Microservices, RESTful API, UML, Test-Driven Development.

CERTIFICATIONS

Intermediate Machine Learning by Kaggle
