☎ +1 805-204-7027 ✉ email Portfolio 🐙 GitHub in LinkedIn LeetCode

Experienced Software Developer with 3+ years in MERN stack and React Native, currently pursuing a Master's in Computer Science at CSUCi. Passionate about full-stack development and building scalable applications. Actively seeking for job opportunities to apply my skills, gain industry experience, and contribute to innovative projects. Open to new challenges!

EDUCATION

California State University Channel Islands, Masters in CS — LA, Camarillo	Aug 2024 - Dec 2025
Sreenidhi Institute of Science and Technology, B.Tech in IT — Hyderabad, India	Jun 2017 - Jul 2021

EXPERIENCE

Olive Technology, Full Stack Developer — Onsite (Hyderabad, India)	Aug 2022
- Develop and maintain a comprehensive Bible translation application across web, desktop, and mobile platforms. - Utilize ReactJS for web UI to ensure a seamless and responsive user experience. - Implement server-side logic using NodeJS and ExpressJS for efficient data processing. - Manage data storage and retrieval using MongoDB, ensuring optimal performance. - Integrate AWS S3 bucket for web application, handling multimedia content storage. - Build a desktop application using ElectronJS for cross-platform compatibility and a native-like experience. - Conduct thorough testing and debugging to identify and resolve issues across platforms. - Ensure application security and performance, staying updated on industry trends and technologies.	
Thincovate Software Solutions, Associate Software Engineer — Onsite (Hyderabad, India)	Nov 2021 - Aug 2022
- Led web accessibility initiatives for React JS projects, ensuring compliance with WCAG guidelines. - Implemented inclusive design principles, conducted accessibility audits, and collaborated with cross-functional teams to enhance user experiences. - Implement responsive design to ensure cross-device and cross-browser compatibility. - Successfully delivered accessible solutions, making web content usable for all, fostering a more inclusive digital environment.	

SKILLS

Front End: HTML, SCSS, JS, ReactJs, Redux/ReduxToolKit, React Native, Ionic, ElectronJs, Angular, nextjs
Back End: Nodejs, ExpressJs, MongoDB, MySql
UI: Bootstrap, MaterialUI, Ant Design, Angular Material, Shadcn
Additional: Linux, AWS(EC2, S3), Python, Flask, GraphQL, React Query, Bit Bucket, Jira, Git, GitHub

PROJECTS

Synchronus Chat App 	Personal Project
Mar 2025	
A real-time chat web application built with the MERN stack (MongoDB, Express, React, Node.js). It enables users to send direct messages (DMs) and participate in group chats with instant message delivery. The app features user authentication, message persistence, and a responsive UI for seamless communication. WebSockets (via Socket.io) ensure real-time synchronization, while MongoDB stores chat history for future reference.	
Rhema Emetly App 	
Jan 2024 - Mar 2024	
A music streaming application inspired by Spotify, tailored for users to access songs, podcasts, and sign language content centered around the Bible. Developed using React Native, Node.js, and AWS S3, the app provides a seamless multimedia experience for exploring spiritual content in various formats.	
Rhema Bible Translation App 	
Jun 2023 - Dec 2023	
Developed a web application designed to translate Bible books from one language to another, utilizing the MERN (MongoDB, Express.js, React.js, Node.js) stack. The application features a speech detection system that converts spoken words into text, enhancing the accessibility and efficiency of the translation process.	

CERTIFICATES & ACHIEVEMENTS

Solved 200+ LeetCode Problems 	Last 6 months
United States 2025	
AWS Academy Graduate - AWS Academy Cloud Architecting 	Nov 2024
United States 2024	
AWS Academy Graduate - AWS Academy Machine Learning Foundations 	May 2025
