

Dhrumil Buch

Data Analyst

San Jose, CA | +1 (669)-317-6833 | buch.dhrumil99@gmail.com | [LinkedIn](#)

SUMMARY

Data Analyst with 4+ years of experience leveraging advanced analytics, AI/ML models, and business case development to improve operations, product performance, and strategic decision-making. Proven expertise in SQL, Python, data visualization, and statistical analysis across healthcare and SaaS industries. Adept at working with large datasets, automating reporting pipelines, and collaborating with cross-functional teams in Agile environments. Demonstrated ability to deliver actionable insights that support cost reduction, process improvement, and customer satisfaction.

SKILLS

Data Analysis & Tools: SQL, Excel, Python (Pandas, NumPy, TensorFlow, PyTorch, Scikit-learn), R.

BI & Visualization: Tableau, Power BI, Looker, Matplotlib, Seaborn.

Data Management & Databases: PostgreSQL, MySQL, Snowflake, Google BigQuery, MongoDB.

Data Engineering Basics: ETL Pipelines, Airflow, Data Cleaning & Transformation.

Statistical Methods & Reporting: A/B Testing, Regression Analysis, Forecasting, KPI Dashboards, Data Quality Audits.

Cloud Platforms: AWS (S3, RDS, Redshift), GCP (BigQuery, Cloud Storage).

Project Methodologies & Tools: Agile/Scrum, JIRA, Confluence, Git, Tableau Server.

EXPERIENCE

Molina Healthcare, USA | Data Analyst

Oct 2024 – Current

- Built and maintained interactive dashboards in **Tableau** to track key performance metrics for patient claims, leading to a 25% improvement in claims resolution time.
- Automated monthly reporting pipelines using **Python** and **SQL**, reducing manual reporting time by 40+ hours/month.
- Analyzed large healthcare datasets (5M+ records) to identify utilization trends, providing financially quantifiable cost-optimization insights.
- Collaborated with clinical and finance teams to deliver custom data models that supported evidence-based decisions.
- Conducted statistical analysis (e.g., **regression**, **trend analysis**) using **Streamlit** to evaluate provider performance and risk scores.
- Ensured HIPAA compliance in **data handling** and reporting across all analytics projects.

Druva Software, India | Data Analyst

May 2020 - July 2023

- Developed and optimized **SQL** queries for business reports and dashboards, reducing report runtime by 50%.
- Built automated **Excel** and **Tableau** reports to track customer churn and usage trends, resulting in a 15% increase in retention strategies.
- Partnered with product and marketing teams to define KPIs and conduct **A/B tests** quantify impact in ROI terms, guiding feature adoption strategy.
- Analyzed customer support ticket data and identified root causes of delays, contributing to a 20% improvement in resolution rate.
- Created **ETL** scripts using **Python** and **SQL** to clean and transform raw product usage data for analytics consumption.
- Conducted **ad hoc** analyses to support executive decision-making on pricing, customer segmentation, and market expansion.

EDUCATION

San Diego State University, San Diego, CA

Masters of Science in Big Data Analytics

Aug 2023 – May 2025

3.8/4.0
