Experience

ST. JOHN'S UNIVERSITY | New York, NY

Participant in Student Managed Investment Fund

Applied to and gained acceptance in a highly competitive graduate level investment class that involved conducting research and proposing investment strategies for a \$1.46 million investment fund that included 24 stocks, 5 equity ETF's and 1 bond ETF.

- Worked with a student analyst team to conduct extensive research on aggressive and risk adverse investment strategies that were appropriate for the investment portfolio.
- Presented strategies to the class and then recommended changes to the investment committee as required by the board of directors including recommending investment in Facebook for a long buy position with 28% upside on the current market price.

Executive-in-Residence Program

Top drawn to participate in the Executive-in-Residence program and use theoretical knowledge to assist real world businesses. Provided consulting and recommended executable solutions to local businesses.

- Worked with Protiviti – a financial consulting firm to assist them in solving communications issues within the organization. Developed a flow chart and utilized dormant software that they already owned.
- Assisted the Center for Executive Development to increase business in leadership development and insurance. Suggested focusing on the Queens area to target niches.

Applied Finance Institute

Interacted with leading finance professionals and learned about on-going research and future trends in the finance sector.

G.A.M.E. Conference

Attended the Global Asset Management Education Conference and participated in workshops delivered from professionals at the top of their field all over the world. Developed advanced skills in financial analysis.

Research Challenge – Chartered Financial Analyst Institute

Represented St. John's University in the annual CFA challenge in New York State. Conducted relative and absolute valuations and macro-economic analysis for Dominos Pizza. Recommended a stock "buy" with a target price of 26% upside on the current market price. Presented research and findings to Senior Leadership at Dominos.

THE MAHARAJA SAYAJIRAO UNIVERSITY OF BARODA | Vadodara, India
