EDUCATION

-
- M.S, Transportation Engineering, University of California at Berkeley GPA 3.52/4.0** August 2009 - May 2010
- Coursework: Analysis of Transportation Data, Law for Engineers (contracting law), MBA Fundamentals, Transportation Public Policy, System Analysis in Transportation, Transportation Sustainability, Highway Operations, Air Transportation, Operation of Transportation Facilities
- B.S, Civil Engineering, University of California at Berkeley GPA 3.2/4.0 (Last two years)** August 2006 - May 2009
- Coursework: Data Analysis, Advanced Probability and Statistics, Construction Management, Economics, Transportation Engineering, Air Transportation, Urban Planning, Computer Programming, Civil Systems (Cost Optimization), Structures, Geotechnical Engineering
- Engineering Lower Division Classes, American University in Cairo GPA 3.68/4.0** August 2004 - May 2006
- Coursework: AutoCAD, Computer Programming, Structures, Probability and Statistics, Economics

JOBS AND INTERNSHIPS

-
- Regional Supply Chain Manager, Europe, The Middle East & Africa – Pampers, Procter & Gamble** October 2010 – July 2012
- Worked with a regional team located in various countries across Europe and The Middle East
 - Managed and Analyzed 18 months forecasts for 5 raw material classes across the 12 Pampers plants in the region
 - Provided consulting to P&G plants and suppliers to help them overcome supply crises and improve supply systems
 - Signed yearly contracts with raw material suppliers across the region
 - Managed raw material inventory levels in P&G plants and suppliers plants
 - Designed and implemented new systems to reduce inventories and avoid material run out crisis
 - Qualified on level 3 Unified Problem Solving (breaking down a vague problem, finding its root cause and solving it)
 - Eliminated an average of 4 stops per day on the production line by leading a 3 day Unified Problem Solving model
 - Led a Work Improvement Process to enhance the finished product shuttling process and reduce delays
 - Enhanced the new hires educational experience by creating a detailed 3-D animated presentation to describe the diaper composition and how it relates to the production line – the presentation was shared with new hires regionally
 - Coached more recent new hires on technical and systems related topics
- Grader, Transportation Systems Engineering Class, UC Berkeley** January 2010 – May 2010
- Traffic Engineering Intern, Dar Al-Handasah Consultants (Shair & Partners), Egypt** June 2009 – July 2009
- Studied trip generation and parking rates using highway capacity manuals
 - Developed O-D Matrix calibration and traffic survey analysis
 - Improved intersections level of service using HCS and aaSIDRA
 - Built and assigned networks using SATURN, VISUM and EMME software
- Data Analysis Research Assistant, UC Berkeley** June 2008 – August 2009
- Applied statistical analysis to the traffic flow on I-80W and found relationships between data collected by loop detectors and data collected by ETC (electronic toll collection)
 - Found correlations between accident rates and accident durations, and the corresponding traffic delay time

LEADERSHIP

-
- Women Network Committee, Procter & Gamble** October 2010 – July 2012
- Updated and maintained the Women Network logo and mission statement
 - Organized Women Network monthly and bi-annual events
 - Prepared event topics and invited guest speakers
 - Planned the logistics given the budget and time constraints
- TRANSOC Chief of Communication and Event Coordinator** September 2009 - May 2010
(TRANSOC is the social and professional organization for the transportation engineering graduate school at UC Berkeley)
- Organized professional and social events under strict budget constraints and reached out to students

COMPUTER & LANGUAGE SKILLS

-
- Computer Skills**
- Microsoft Office, Adobe Photoshop, Basic C++ programming, MATLAB, AutoCAD, HCS, aaSidra, VISUM, SATURN, EMME, Synchro, SAP
- Language skills**
- English (fluent), Arabic (fluent), French (advanced)

INTERESTS

-
- Tae kwon do (blue belt) – Egyptian folk dancing – event planning
