## PROFESSIONAL SUMMARY:

Full Stack Developer with 2+ years of experience building scalable, enterprise-grade applications using Java, Spring Boot, React.js, and Node.js. Proficient in designing RESTful APIs, integrating cloud platforms (GCP, Vercel), and implementing CI/CD pipelines. Strong foundation in frontend/backend architecture, Agile workflows, and cross-functional collaboration. Delivered multiple full-stack projects that improved system efficiency by up to 40%. Holds a master's in business and information systems from NJIT (May 2025) and a Bachelor's in Computer Science and Engineering.

## EDUCATION:

**Master's in business and information systems**  
New Jersey Institute of Technology, NJ (CGPA-3.55/4)

Sept 2023- May 2025

**Bachelor of Technology, Computer Science and Engineering.**  
Gayatri Vidhya Parishad College of Engineering, Visakhapatnam, India (CGPA-3.31/4)

June 2019-May 2023

## SKILLS:

**Languages:** Java, Python, JavaScript, C#, SQL  
**Frameworks & Libraries:** React.js, Node.js, Angular, Express  
**Web Technologies:** REST APIs, JSON, Frontend Routing, Responsive Design  
**Programming Concepts:** OOP, Data Structures, Algorithms, Debugging  
**Database Technologies:** MySQL, MongoDB, PostgreSQL, NoSQL  
**Version Control & DevOps:** Git, GitHub, CI/CD Pipelines (basic)  
**Cloud & Tools:** AWS (S3, EC2), Azure (basic familiarity), VS Code  
**Soft Skills:** Agile Collaboration, Documentation, Time Management, Growth Mindset

## EXPERIENCE:

**Rugged Monitoring – Full Stack Developer, India Nov 2021 – Aug 2023**

- Designed and deployed scalable full stack web applications using Java, Spring Boot, and Angular/React, improving user experience across 3+ internal tools.
- Created and maintained 10+ RESTful APIs to integrate third-party services, reducing manual sync delays by 25%
- Collaborated with UI/UX teams to implement 10+ new components, improving usability across a 1,000+ internal user base.
- Released applications to Vercel and Google Cloud, achieving 99.9% uptime and 20% faster load times globally.
- Led unit and integration testing using JUnit and Postman, decreasing bug reports by 30%.
- Participated in 20+ Agile sprint cycles using JIRA, helping deliver new features every 2 weeks with 100% on-time release rate.

## PROJECTS:

**Pinnacle Pizza - Online Ordering Web App | React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Vercel**

- Built and deployed a pizza ordering platform that handled 100+ real-time users with <1s latency during peak traffic.
- Integrated RESTful APIs and modular architecture that reduced API response time by 35% and supported up to 500 orders/day.
- Engineered a responsive and interactive frontend using React.js and Tailwind CSS, providing a seamless user experience across devices.
- Implemented responsive design and published via Vercel with CI/CD, reducing deployment time from 15 min to under 1 min.
- GitHub Repo: [Pinnacle Pizza](#) | Live App: [Visit](#)

**Personal Portfolio Website | HTML, CSS, JavaScript, GitHub Pages, Responsive Design**

- Created and launched a fully responsive personal portfolio website to showcase projects, technical skills, and contact details.
- Built 5+ interactive sections with smooth navigation using HTML/CSS/JavaScript, improving session duration by 2x.
- Attracted 800+ visits in the first month and received positive feedback from multiple recruiters via LinkedIn.
- Automated deployment via GitHub Pages with 100% uptime and continuous version control through GitHub commits.
- Optimized layout and styles for both desktop and mobile devices using media queries and modular code structure.
- Demonstrates expertise in front-end development and clean UI design, serving as a centralized hub for professional presence.
- GitHub Repo: [Dinesh Portfolio](#) | Live Site: [Visit](#)

**Leave Management System (Core Java) | Java, MySQL, JDBC, OOP, Swing**

- Developed an internal HR leave tracking system with Java Swing, JDBC, and MySQL, cutting manual workload by 40%.
- Applied OOP principles to manage 3 user roles and validate 50+ leave requests/month through remote access via Google Cloud SQL.
- Secured HR data for 20+ employees by implementing role-based access controls, preventing unauthorized access.

## CERTIFICATIONS:

- AWS Certified Cloud Practitioner – Amazon Web Services
- Creative Javascript Course -Udemy
- Java Programming: Complete Beginner to Advanced – Udemy
