Mobile: +1 216-583-6888

SUMMARY:

Data Analyst with Experience in conducting Data Analysis and Profiling Complex SQL Queries the work involved extensive data analysis, SQL development, machine learning model implementation, and business collaboration to produce actionable insights and improve data systems and reporting capabilities Used Advanced NLP Models. And Microsoft Certified: Power BI Data Analyst Associate.

EDUCATION QUALIFICATION:

- **CAMPBELLSVILLE UNIVERSITY – Louisville (USA)**

Master's in computer science – CGPA: 3.9/4.0 – (Jan 2023 - Aug 2024)

Relevant Coursework: Architecture and operating systems, Cyber security, Computer Networking, Advanced Database, Artificial Intelligence, Data Mining.

- **TIRUMALA ENGINEERING COLLEGE – Hyderabad (INDIA)**

Bachelor of Technology, Electronics and Communication Engineering – (Aug 2016 – Sep 2020).

Relevant coursework: Microwave Engineering, VLSI Design, Computer Networks, Antennas and Wave Propagation, Digital signal processing, Linux Programming, Java Programming, Analog communications.

TECHNICAL SKILLS:

- **BI Tools:** Power BI (DAX, Power Query), Tableau, SQL Server Reporting Services (SSRS), Crystal Reports, AWS Quick Sight
- **Databases:** SQL Server, MySQL, Oracle
- **Programming Languages:** SQL, Python (Pandas, NumPy, Scikit-learn), R, C, C++
- **ETL Tools:** Informatica, Apache NiFi
- **Cloud Platforms:** AWS (Certified Cloud Practitioner), Microsoft Azure
- **Data Analysis & Modeling:** Regression (linear, logistics), classification, clustering, EDA, data profiling

- **Machine Learning & NLP:** Scikit-learn, ELMO, BERT, LSTM, CNN
- **Web Technologies:** HTML, CSS, JSON, XML, React, Node.js
- **Other Tools:** Excel (advanced), MS Office Suite (Word, Excel, Outlook, MS Project), UML, Git, SSIS

EXTRA CURRICULAR AND CERTIFICATIONS:

- **JP Morgan Chase & Co's Software Engineering Job Simulation on Forge** – April 2025.
- **Verizon Cloud Platform Job Simulation on Forage** - April 2025
- Completed a job simulation involving building a hypothetical new VPN product for Verizon's Cloud Computing team.
- Used command line Python to test whether Verizon's VPN met the cloud-native traits, i.e. redundancy, resiliency and least privilege.
- Researched approaches to achieve application security and communicated insights in a PowerPoint Presentation.
- **AWS Certified Cloud Practitioner** (28 March 2025 – 28 March 2028)
- **Microsoft Certified: Power BI Data Analyst Associate** (12 December 2024 - 12 December 2025).

EXPERIENCE:

Energy Tech Global, Hyderabad, India – Data Analyst (September 2020 – August 2022)

Key Responsibilities:

- Interactive dashboard development using Power BI, DAX and Power Query for advanced data modeling.
- Data visualization, storytelling, Troubleshooting and optimizing BI dashboards.
- Documentation of business requirements and data processes. Staying current with Power BI updates and BI best practices.
- Conducted data analysis and profiling using complex **SQL** queries to answer business questions.
- Developed data dictionaries for internal use and access by multiple teams.
- Involved using **ETL** tool Informatica to populate the Database, Data transformation from old database to new database.
- Created **SQL** stored procedures, **SSIS** packages, triggers, cursors, tables, and views for application development.
- Collaborated with business analysts on requirements gathering, business analysis, and project coordination.

- Translated business concepts into **XML** schemas and designed **UML**-based **XML** vocabulary.
- Designed and optimized Business Objects Universes and worked with Crystal Reports for weekly report generation.
- Applied data mining techniques like linear regression, logistic regression, classification, and clustering.
- Generated reports using SQL Server Reporting Services (**SSRS**) and developed custom reports.
- Developed complex stored procedures, functions, and triggers with T-SQL and SQL.
- Conducted data validation and quality checks using SQL queries.
- Designed **OLTP** and **OLAP** environments, documented metadata, and performed data validation.
- Developed SQL joins, views, test tables, and scripts for data extraction and reporting.
- Used SQL and advanced Excel for identifying discrepancies in customer data and created Tableau dashboards for reporting.
- Applied statistical analysis and machine learning algorithms (e.g., linear regression, logistic regression, **SVM**).
- Performed exploratory data analysis (**EDA**) using Python (**Pandas**, **NumPy**), and visualized data with histograms and box plots.
- Used advanced **NLP** models like **ELMO** and **BERT** for feature extraction and sarcasm detection.
- Improved data pipeline efficiency using Apache **NIFI** and implemented machine learning for sarcasm detection.
- Developed and applied deep learning models (**LSTM**, **CNN**) to enhance sarcasm detection in text.

ACHIEVEMENTS:

- Received a certification for attending “**WORKSHOP ON HOME AUTOMATION WITH IOT USING RASPBERRY PI**” conducted in 2019.
- Have a Certificate on Completion of a course “**Data Analytics Foundations**” in Linked Learning which was sponsored by CPE.
- Have a Course Completion Certificate on “**Complete Data Analyst Bootcamp from Basics to Advanced**” in UDEMY.
- And Microsoft Certified: **Power BI Data Analyst Associate Certification**.

CO-CURRICULAR ACTIVITIES:

- Participated in “**ENETRPRENURSHIP AWARENESS CAMP**” Organized by NSTEDB in 2018.

- Attended an IOT Workshop and completed training which was conducted by “VP Digital Workforce and Transformation”.
