

DINESH KUMAR SAYAM

BUSINESS ANALYST

2019484509 | dineshkumarsayam629@gmail.com | New Jersey, USA

PROFESSIONAL SUMMARY

Business Analyst with over 3+ years of experience delivering data-driven solutions across financial and technology domains. Skilled in SQL, Python, Power BI, Tableau, and Agile methodologies, with a strong record of improving operational efficiency, automating reporting workflows, and optimizing decision-making through actionable insights. Known for bridging business and technical teams to streamline processes, enhance data visibility, and deliver measurable impact on performance and productivity.

EDUCATION

Master of Science, Business Analytics, Adelphi University, Garden City, New York

Bachelor of engineering in Electronics and communication engineering, GITAM University, Visakhapatnam, India

EXPERIENCE

Business Analyst | Principal Financial Group, New York, USA

Jan 2025 - Present

- Drove requirements elicitation and documentation for enterprise financial planning modules by conducting stakeholder interviews and workshops, translating complex business objectives into detailed BRDs, FRDs, and data flow diagrams.
- Performed data modeling and analysis using SQL, Workday SCM, and Excel Power Query, identifying anomalies and patterns that improved reporting accuracy and reduced reconciliation errors by 20%.
- Designed and deployed executive dashboards in Power BI to visualize operational KPIs, fund performance, and process efficiency metrics, supporting real-time decision-making for senior management.
- Led cross-functional Agile teams through sprint planning, backlog refinement, and UAT execution, ensuring delivery of business-critical enhancements on schedule with a 15% improvement in sprint velocity.
- Developed business process reengineering frameworks using Lucidchart, Visio, and Figma, mapping as-is vs. to-be workflows to eliminate redundancies and streamline approval cycles across departments.
- Executed impact and cost-benefit analyses for automation initiatives and Workday integrations, recommending solutions that reduced manual data handling by 30% and improved system adoption rates.
- Authored comprehensive data dictionaries, SOPs, and user manuals to maintain consistent documentation standards and ensure knowledge transfer across global teams.

Business Analyst | Tata Consultancy Services, Hyderabad, India

Jun 2022 - Jul 2023

- Analyzed and streamlined data integration processes for the Hardware project, improving data processing efficiency by 30% and enabling faster, insight-driven decision-making.
- Managed and monitored end-to-end data workflows, achieving 90% accuracy and ensuring timely, reliable reporting for business stakeholders.
- Led cross-functional teams of up to 10 members on systems integration initiatives, introducing automation that reduced manual effort by 25%.
- Partnered with clients and internal stakeholders to gather detailed requirements and translate them into actionable insights, accelerating project delivery timelines by 20%.

Jr. Business Analyst | Hexaware, INDIA

April 2021 - May 2022

- Collaborated with developers and QA teams to gather requirements, refine user stories, and validate deliverables during UAT phases for multiple enterprise software releases.
- Created detailed process maps and wireframes using Lucidchart, Visio, and Figma, clarifying workflows and improving stakeholder alignment during early design phases.
- Conducted feasibility studies and cost-benefit analyses for product enhancement proposals, contributing to a 20% increase in project approval rates.
- Supported data validation and analysis in Excel, performing pivot-based reporting and VLOOKUP/HLOOKUP automation to ensure data consistency and accuracy.
- Assisted in preparing SOPs, business cases, and user documentation that improved onboarding efficiency and reduced training time for new team members.

SKILL

Project Methodologies: Agile (Scrum), Waterfall, Kanban, SDLC

Business Analysis Tools: Microsoft Excel (Advanced), Tableau, Power BI, Lucidchart, Micro, Figma, MS Visio, Smartsheet

Data Management s Analytics: SQL, Python, Workday SCM, Excel PivotTables, Power Query, VLOOKUP, HLOOKUP, Track Wise

Documentation s Reporting: BRD, FRD, SRS, SOPs, Data Dictionaries, Dashboards, KPI/Metrics development, wirefram.in

Process s Visual Modeling: Lucidchart, MS Visio, Figma, draw.io, process modeling/design, business process reengineering

Collaboration s Project Tools: JIRA, Confluence, Trello, SharePoint, Smartsheet, Teams, RapidMiner, Miro

ERP s Specialized Tools: SAP, Workday, requirements management software

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate
