

Divjot Singh Lamba

New York (Open to Relocation) | +1 (945)-244-8904 | lambadivjot25@gmail.com | [LinkedIn](#) | [GitHub](#)

Data Enthusiast with hands-on experience in data visualization, AI/ML, predictive modeling and cloud computing, passionate about leveraging data-driven insights to drive business decisions.

EDUCATION

University of Texas at Dallas, Texas

Aug 2022-May 2024

Master of Science in Business Analytics (Specialization in Data Science)

GPA: 3.85

University of Delhi, India

Aug 2018-May 2021

Bachelor of Arts in Business Economics

GPA: 3.80

SKILLS

Programming Languages: SQL, R, Python (Pandas, NumPy, Sci-kit learn, Matplotlib, Seaborn)

Software & Tools: Power BI, Tableau, Snowflake, Excel, BigQuery, AWS, GCP

Techniques: ETL/ELT, CTE, Statistical Model Building, ML algorithms (Linear Regression, Logistic Regression, Classification, Decision Tree, Clustering), A/B Testing, Database Design, Data Analytics, Data Warehousing, Project Management (Agile, Waterfall)

Certifications: Applied Machine Learning, Alteryx Foundation Micro Credentials, Google Analytics

Soft Skills: Problem Solving, Analytical Mindset, Critical Thinking, Cross-Functional Collaboration, Communication, Detail-Oriented

WORK EXPERIENCE

Bright Mind Enrichment – Remote, USA

Aug 2024 - Jun 2025

Data Analyst

- Leveraged **SQL** and **Excel** to collect, clean, and analyze donor data, improving campaign effectiveness by 25%
- Built automated dashboards and ad hoc reports in **Power BI**, cutting reporting time by 40% and providing leadership with near real-time campaign insight
- Conducted segmentation analysis to identify key donor segments and created targeted outreach strategies, driving a 15% increase in donations

Oil States International – Dallas, Texas, USA

May 2023 - Nov 2023

Business Analyst Intern

- Developed and optimized **SQL** queries to extract, transform, and analyze large-scale data from JD Edward and Glovia ERP system to support real-time reporting needs
- Designed and implemented **Power BI** dashboards using **DAX**, improving inventory accuracy by 10% and reduced vendor defects by 20%, aligning operational efficiency with business goals
- Built a **predictive model** using **Python** for identifying vendor delivery status, enhancing supply chain efficiency
- Developed complex **SQL** queries and interactive data visualizations to address **ad-hoc** requests from stakeholders, enabling data-driven decision-making and improving operational efficiency

Techugo – Noida, India

May 2021 - Jul 2022

Business Analyst

- Collaborate with stakeholders across healthcare, fintech, and telecommunication sectors to define **business objectives**, **gather product requirements** and develop tailored business solutions, driving a \$200K increase in revenue
- Collaborated with cross-functional teams, including operations, analytics, and engineering, to deliver intuitive, data-driven applications and ensure alignment with client goals
- Led data-driven product analysis using **SQL** and **Excel** to evaluate feature performance and identify opportunities.
- Developed and maintained **Tableau** dashboards to monitor post-launch **KPIs**, including **user retention**, **conversion rates**, and **customer engagement**, guiding future product investments

MyCaptain – New Delhi, India

July 2020 - Sep 2020

Marketing Data Analyst

- Organized and managed 3 campaigns across social media and search engines, resulting in a 35% increase in platform visits and a 20% increase in enrollments.
- Developed dashboards using **Tableau** to track KPI's such as user acquisition cost, user retention, and platform usage

PROJECT EXPERIENCE

Customer Churn Prediction

Jan 2025

- Built a machine learning model using **Python** to predict customer churn using **Logistic Regression** and **Random Forest**, achieving an **82%** accuracy.

Credit Risk Assessment Model Development

May 2024

- Developed a credit risk scoring model using **machine learning** algorithms in **Python** to evaluate borrower profiles and predict default probabilities with high accuracy.
