Market access

Masters in Biotechnology with extensive experience in pharmaceutical market access operations and consulting. Expertise in HTA, pricing, reimbursement strategies, and payer evidence requirements across US, EU5, and global markets. Skilled in data management, process optimization, automation, and client lifecycle support.

WORK EXPERIENCE

EVERSANA

07/2024 - 06/2025

Senior Analyst

USA

- Expanded NAVLIN HTA coverage to Denmark, Norway, Czech Republic, and Switzerland; developed SOPs and mapped data points using 120+ data points NAVLIN platform, increasing cross-country health technology assessment data availability.
- Delivered quantitative and qualitative analyses using Excel, Power BI to resolve 50+ real-time client inquiries quarterly, improving resolution time and raising client satisfaction scores.
- Managed internal and external communications on critical issues and data insights via MS Teams, email, and stakeholder sessions, ensuring project alignment with client requirements and reducing scope change requests.
- Streamlined data review workflows for HTA documents, improving efficiency and enabling timely insights for strategic decision-making.

Access Infinity

06/2023 - 12/2023

Consultant (Contract)

UK

- Performed in-depth analysis of 1,500 HTA reports across UK(NICE), Canada (CADTH), and Spain (AEMPS) and mapped key variables including patient demographics and line of treatment, informing payer strategy for the NURO database.
- Performed deep-dive analysis of AMP pricing for 75 oncology drugs over a decade. Used Excel to manually track and visualize trends, uncovering patterns that informed strategic recommendations.

IQVIA

05/2017 - 10/2022

HTA Consultant

India

- Conducted quality assurance on mapped recommendation details within the HTA database for US, Canada, and Australia, ensuring 100% data accuracy and real-time updates to support comprehensive landscape analysis.
- Collaborated with cross-functional teams to incorporate RWE as a separate attribute in the database and enhancing the evidence base for product positioning.
- Contributed to HTA database enrichment by identifying and integrating new analogs from global HTA evaluations, supporting evidence-based pricing and reimbursement strategies.
- Led automated web scraping of 4,000+ Drug Bank records to integrate data with platform schema and enhance data quality to support HTA and market access decisions with granular insights into payer recommendations.
- Served as SME for IQVIA's HTA Accelerator platform, automating clinical and economic data entry for oncology and rare disease submissions by mapping ICER final evidence reports and PBAC public summary documents using RPA which reduced manual workload by 10 hours/week and accelerated client access to strategic insights by 50%.
- Reviewed regulatory records from FDA, Health Canada, and TGA to ensure data accuracy and completeness across key fields, including population, indication restrictions, and safety parameters.

EDUCATION

Master of Science (Biotechnology)

SRN Adarsh College

India

Bachelor of Science (Biotechnology)

Spicer Memorial College

India

AWARDS & SCHOLARSHIPS

Ovation Award

IQVIA

01/2022

SKILLS

HTA methodologies and guidelines: AEMPS, CADTH, G-BA, HAS, ICER, IQWiG, MSAC, NICE, NoMA, PBAC, SMC

HTA and Market Access Platforms: IQVIA HTA Accelerator (IQVIA), NAVLIN (EVERSANA), NURO (Access Infinity)

Regulatory Landscapes: FDA, Health Canada, Swizzmedic, TGA

Data Analysis and Visualization: Excel, PowerPoint, QA, Spotfire

Automation and Process Optimization: Robotic Process Automation (RPA), Web Scraping Tools

Collaboration and Project Management: Microsoft Project, Microsoft Teams, SharePoint
