EDUCATION

University of North Texas, Denton

Masters in Advanced Data Analytics (In Progress)

Grade 4.0

Coursework: Data Analytics I, Data Analytics II, Big Data Data Visualization, Harvesting Storing and Retrieving Data, Methods of Discovering & Learning with Big Data

Pragati Engineering College, Jawaharlal Nehru Technological University, India

Bachelor of Technology in Computer Science and Engineering, 2016

Coursework: Probability & Statistics, Mathematical Methods, Database Management Systems, Cloud Computing, Data Warehousing & Data Mining, Managerial Economics and Financial Analysis

EXPERIENCE

Customer Service Executive, HSBC, Nov 2016 – April 2019

- Performed exploratory data analysis to verify loan applications and overdrafts
- Created reports in Excel to summarize transactional data which improved productivity by 40%
- Developed KPIs to measure & track agent performance using customer support ticket data
- Received top performer of the month award for 3 times during my tenure

Computer Networks Intern, Reliance Industries, 2015

- Developed a dashboard to track offshore oil rigs communication health using networking data
- Tracked bit rates, packet loss rate, load levels & identified latencies at various ports

ACADEMIC PROJECTS

Housing Data Analysis, March 2025

- Performed Exploratory Data Analysis to uncover hidden insights
- Validated the insights by conducting hypothesis testing using ANOVA & Linear Regression
- Identified significant factors impacting house prices

Superstore Sales Performance Dashboard using Tableau, April 2025

- Created a dynamic and interactive dashboard using Tableau for both high level performance overview for senior leadership as well as the ability to deep dive into the details
- Provided visibility into products, regions, sales managers and trends over time to easily identify the key insights and drivers of performance with cross filtering ability

Bicycle Accident Prevention Project, April 2025

- Scouted for reliable open source data on bicycle accidents ensuring data completeness & consistency
- Cleaned and transformed data using OpenRefine, then ingested it into Google Cloud Platform for analysis with BigQuery
- Conducted exploratory analysis to uncover trends in collisions and proposed safety improvements to municipal planners

CERTIFICATIONS

- Data Analyst Associate Certificate by DataCamp, August 2024
- Data Analyst in SQL, Career Track by DataCamp, July 2024

TECHNICAL SKILLS

Programming: Python, SQL

Miscellaneous: MS Excel

Reporting & Visualization: Power BI ,Tableau
