Professional Summary

Results-driven Business and Data Analyst with over 5 years of experience specializing in healthcare claims, data analysis, and process optimization. Proven expertise in gathering and documenting business requirements, designing efficient workflows, and delivering actionable insights through advanced reporting and statistical analysis. Skilled in SQL, Python, Power BI, Tableau, and cloud platforms such as AWS and Snowflake. Adept at collaborating with cross-functional teams in Agile environments to drive operational improvements, ensure compliance, and support data-driven decision-making. Demonstrated success in automating processes, reducing turnaround times, and enhancing audit readiness within highly regulated industries. Holds a Master's degree in Data Science and a strong engineering background.

Technical Skills

- **Business Analysis & Documentation:** Business Requirements Documents (BRDs), Functional Requirements Documents (FRDs), User Stories, Workflow Design (Visio), JIRA
- **Data Analysis & Reporting:** SQL, MySQL, PostgreSQL, Python (Pandas, NumPy), Jupyter Notebooks, Power BI, Tableau, Advanced Excel
- **Statistical Methods:** Regression Analysis, A/B Testing, Hypothesis Testing
- **Data Engineering & Cloud Platforms:** AWS (Redshift, S3, EC2), Snowflake
- **Claims & Healthcare Systems:** Medicare/Medicaid Claims Processing, Compliance Validation, Audit Preparation, HIPPA
- **Collaboration & Project Management:** Agile/Scrum Methodologies, Sprint Planning, Cross-functional Team Collaboration

Professional Experience

Business Analyst

Jun 2022 – present

TriWest Healthcare Alliance, Phoenix, AZ

- Collected business and compliance requirements for billing operations through regular meetings and workshops. Documented findings in BRDs, FRDs, and user stories using JIRA and created supporting workflows in Visio, improving team alignment and reducing follow-up rework.
- Used SQL, MySQL, and PostgreSQL to identify gaps in claims processing. The findings led to process changes that improved turnaround time and reduced delays by nearly 30%.
- Built and maintained reports in Power BI to monitor key metrics like claims volume, reimbursement trends, and compliance performance. These reports became part of the leadership team's monthly review process.
- Collaborated with engineering teams using AWS Redshift and Snowflake to access and analyze data across systems for reporting and audit preparation.
- Used Jupyter Notebooks and Python scripts to help clean and validate data before generating reports, which helped reduce manual work and ensure consistent results.
- Applied regression analysis and A/B testing to evaluate changes in claim handling workflows and measure impact.
- Participated in daily stand-ups and sprint planning meetings, helping ensure smooth delivery and clear communication across business and IT.
- Worked with Medicare/Medicaid claims and used SQL to validate data across different systems. Efforts contributed to reducing claim mismatches and improving audit readiness.

Business Data Analyst

Feb 2020 – May 2022

Synchronoss Technologies, Phoenix, AZ

- Analyzed over 5 million records monthly using SQL and Python (Pandas, NumPy), identifying and resolving an average of 10+ business process issues per quarter.
- Automated 80% of repetitive data tasks with Python scripts in Jupyter Notebooks, saving the team approximately 15 hours per week.
- Developed and maintained 10+ Tableau dashboards and 15+ advanced Excel reports, providing real-time insights and reducing issue response times by 20%.
- Conducted regression analysis, A/B testing, and hypothesis testing using Python and Excel to support data-driven decision-making.
- Leveraged AWS S3 and AWS EC2 for secure and scalable data storage and processing.
- Collaborated with cross-functional teams using JIRA to manage project workflows and ensure timely delivery.

Education

Master of Science in Data Science**Grand Canyon University, Arizona, USA****Bachelor of Engineering in Computer Engineering****Gujarat Technological University, Gujarat, India****Diploma of Engineering in Computer Engineering****Gujarat Technological University, Gujarat, India**
