

DIVYA TEJASWINI MEGHAM

Email: divyatejaswini060@gmail.com | Phone: +1 (202) 643-0309

PROFESSIONAL SUMMARY

Analytical and detail-oriented **Data Analyst with 4+ years of experience** delivering business insights and scalable data solutions across healthcare, IT services, and technology domains. Skilled in designing cloud-based data pipelines, building interactive dashboards, and performing advanced analytics using **SQL, Python, Power BI, Tableau, and Excel**. Hands-on experience with **Snowflake, Azure, AWS, Databricks, and dbt** to modernize analytics workflows and improve data reliability. Strong expertise in data modeling, data quality, ETL/ELT development, and automation to support data-driven decision-making. Adept at working in Agile environments, collaborating with cross-functional teams, and upholding data governance standards.

TECHNICAL SKILLS

Data Visualization & BI: Power BI, Tableau, Tableau Cloud, Excel (Advanced), Google Looker Studio

Programming & Analytics: Python (Pandas, NumPy, Matplotlib, Seaborn, SciPy), R, SQL, PySpark

Cloud & Data Platforms: Snowflake, Azure Data Factory, Azure SQL, AWS Redshift, S3, Databricks

ETL / ELT & Data Engineering: dbt, Data Modeling (Star Schema, Snowflake Schema), Data Cleaning, Data Transformation, Automation, Data Quality

Tools & Collaboration: Git/GitHub, Jira, Confluence, Agile/Scrum, VS Code, ServiceNow

PROFESSIONAL EXPERIENCE

CVS Health, USA | Data Analyst

Jun 2024 – Present

- Designed and maintained **SQL-based and cloud-integrated data pipelines (Snowflake & ADF)** to automate reporting, reducing manual workload by **60%**.
- Built interactive dashboards in **Tableau and Power BI**, providing real-time insights into customer behavior, sales trends, and operational KPIs.
- Performed exploratory and statistical analysis using **Python and PySpark**, supporting predictive analytics and customer retention strategies.
- Improved data quality and governance across enterprise reporting by implementing validation checks, profiling, and metadata documentation.
- Automated Excel dashboards and cross-platform reporting using **Python + SQL**, enhancing operational efficiency.

Microsoft, India | Business Data Analyst

Oct 2020 – Jul 2022

- Extracted, transformed, and analyzed large datasets using **SQL, Snowflake, and Python** to deliver actionable insights for client engagements.
- Built and optimized **Power BI and Tableau dashboards** to track KPIs, business performance, and process metrics.
- Conducted statistical analysis using Python (Pandas, NumPy) and Excel to support business decision-making.
- Collaborated with stakeholders to translate business requirements into analytics solutions, reports, and visualizations.
- Enhanced data quality by identifying anomalies, performing validation, and implementing corrective ETL updates.

Qualcomm, India | Data Analyst

Jan 2020 – Sep 2020

- Developed complex SQL queries and **Python automation scripts** to analyze large datasets and optimize reporting workflows.
- Designed and maintained Tableau dashboards to support engineering, product, and business teams with actionable insights.
- Performed rigorous data validation, cleansing, and metadata documentation to ensure high-quality datasets.
- Collaborated with data engineers to automate reporting pipelines using **Python, SQL, and cloud storage integrations**.
- Supported forecasting and performance analytics using Excel-based models and Python statistical analysis.

EDUCATION:

Master of Science in Business Analytics | The university of Texas at Dallas | May 2024

Bachelor of Technology in Civil Engineering | Andhra University
