PROFESSIONAL EXPERIENCE

Financial Analyst | Aster Ramesh Hospitals | Vijayawada, India. **Jan 2024 – July 2024**

- Optimized hospital-wide financial reporting by implementing advanced Excel modelling and Power BI dashboards, enhancing budget tracking accuracy and improving efficiency by 15%.
- Supported financial planning through variance analysis, forecasting, and cost allocation reviews, ensuring compliance with healthcare finance regulations and internal audit standards.
- Processed payroll, insurance claims, and vendor invoices using QuickBooks, reducing discrepancies and improving turnaround time.
- Conducted research on tax reforms, reimbursement policies, and healthcare funding models, presenting actionable insights that guided senior leadership's financial strategy.
- Partnered with finance and compliance teams to strengthen internal controls, reducing potential risks in billing and claims management.

HR Intern | Aster Ramesh Hospitals | Vijayawada, India. **June 2019 – July 2019**

- Digitized and managed 1,000+ employee records for compliance audits, improving HR data accuracy and accessibility.
- Supported payroll and workforce reporting, strengthening internal compliance processes.
- Coordinated community outreach initiatives, increasing participation in health campaigns by 30%.

ACADEMIC PROJECTS

Equity & Valuation Analysis (CHEVRON)

- Conducted comprehensive valuation of Chevron Corporation using DCF, CAPM, WACC, Gordon Growth Model, and P/E multiples, resulting in a \$447/share intrinsic price estimate vs. \$157 market, highlighting undervaluation.
- Built 10-year revenue and free cash flow forecasts (2024–2033) integrating macroeconomic, industry, and regulatory trends.
- Performed capital structure analysis, reducing WACC sensitivity by modelling equity-heavy financing vs. debt impacts.

Equity Research & Financial Modelling (TESLA)

- Produced a comprehensive equity research report on Tesla, blending DCF (40%) and relative valuation (60%) to derive a \$176.67 target price with a HOLD recommendation.
- Conducted peer benchmarking (BYD, Ford, Rivian, Lucid) and sensitivity analyses on WACC and terminal growth, stress-testing valuation assumptions under multiple scenarios.
- Delivered strategic insights on EV industry dynamics, regulatory risks, and margin compression, linking macroeconomic trends to Tesla's financial outlook and investment positioning.
