ABOUT ME

A Data Analyst with 2.5 years of experience in transforming raw data into actionable insights to drive strategic decision-making. Proficient in leveraging Python, SQL, Tableau, and Power BI for data visualization, statistical analysis, and predictive modeling. Passionate about uncovering trends, optimizing processes, and delivering data-driven solutions that enhance business performance. Known for a methodical approach, problem-solving mindset, and the ability to translate complex datasets into meaningful narratives. Actively pursuing industry certifications to strengthen expertise and stay ahead in the evolving analytics landscape.
