PROFILE SUMMARY

- A highly motivated and detail-oriented professional with over 8 years of experience spanning Business Analysis, Quality Assurance, Medical Research, U.S. Healthcare, and Hospital Management. Known for being dependable and proactive, with a strong drive to take on new challenges across diverse roles.
- Deeply passionate about contributing to the healthcare industry, backed by robust medical knowledge and a commitment to driving meaningful impact.
- Currently authorized to work in the U.S. under a dependent L2 visa.

WORK EXPERIENCE

Omega Healthcare, Pune, India

Analyst

Mar 2021- Dec 2021, Apr 2022- Mar 2025

- Conducted thorough audits on abstracted patient cases, ensuring 100% compliance with client requirements and providing actionable feedback to abstractors to improve accuracy.
- Performing Root cause analysis with different analytical techniques using Excel, Power BI to identify the error trends of the team and individual.
- Developed customized corrective action plans for abstractors with recurring errors, resulting in a decrease in error rates and timely corrections within 24 hours.
- Gathered and analysed different life sciences data sets like electronic medical records (EMR/EHR), anonymous patient level data, prescription data which is further used for cancer research.
- Worked with the development team to build and translate functional requirements to technical requirements
- Demonstrated and communicated results to clients and onshore team members.
- Proactively identified performance concerns and escalated them to management, resulting in swift resolution of issues and improvement in overall team performance.
- User Acceptance Testing (UAT) support of new audit tool which led to enhancement of the functionality and bug resolution.

Fortis Hiranandani, Navi Mumbai, India

Medical Administrator-IT

Aug 2017 – Feb 2021

- Streamlined administrative operations by conducting a comprehensive review of the Hospital Information System (HIS) and preparing a business requirement document, resulting in an increase in efficiency.
- Documented existing HIS process flow for easy understanding of the users
- Ensure effective implementation of Hospital Information System (HIS)
- Assisted doctors in understanding and using EMR
- Performed testing on HIS to check functionality of the system and coordinated with HIS implementation team regarding issue in the system
- Provided status reports for the project and daily activities in Hospital
- Contributed towards the smooth functioning of Medical Claims while working in the team for more than 1 year.
- Performed IPDRG and CPT coding in MRD and OT.
- Implemented effective COVID protocols and processes for a dedicated COVID centre, including training staff on safety measures and conducting regular internal audits to maintain standards, resulting in reduced incidence of infection among patients and staff.
