SUMMARY

- **Detail-oriented and analytical Clinical Data Manager with over 3 years of experience** in clinical trials and data management within pharmaceutical and research environments. Proficient in CRF/eCRF design, data cleaning, central monitoring, and UAT execution. Adept at identifying and mitigating risks, managing vendor relationships, and ensuring regulatory compliance. Demonstrated ability to manage competing priorities, communicate effectively across teams, and deliver high-quality outcomes under tight timelines. Strong foundation in healthcare informatics, data standards (CDISC/CDASH), and EDC tools, supported by academic credentials and certifications.

SKILLS

- **EDC Platforms:** Medidata Rave, Oracle Inform
- **Data Standards:** CDISC, CDASH, SDTM
- **Tools:** SQL, Tableau, Microsoft Excel, Python
- **Clinical Data Management:** eCRF Design, UAT, CRF Validation, Data Cleaning, SAE/Lab Reconciliation, Metrics Tracking, Risk Assessment, Central Monitoring
- **Documentation & Reporting:** DMP, DVP, Annotated CRFs, Test Scripts, Data Listings
- **Regulatory Compliance:** GCP, FDA, ICH Guidelines
- **Project & Collaboration:** Vendor Oversight, Cross-Functional Communication, Strategic Planning, Team Mentorship

EXPERIENCE

UBC Biopharmaceutical, CT

Dec 2024 – Present

Clinical Data Manager

- Designed and validated eCRFs using Medidata Rave; performed UAT and data cleaning activities to ensure accuracy and quality.
- Conducted risk-based reviews of listings and implemented corrective actions, demonstrating proactive problem-solving and critical thinking.
- Collaborated cross-functionally with stakeholders and vendors for reconciliation and query resolution, ensuring strong communication and collaboration.
- Created and executed test scripts; managed central monitoring metrics and documentation aligned with SOPs and GCP compliance.
- Tracked project milestones and KPIs; presented insights using SQL and Excel, applying data-driven decision-making.
- Delegated tasks effectively and maintained team engagement, fostering mentorship and accountability.

Aurobindo Pharma, India

Sep 2021 – Feb 2023

Clinical Data Manager

- Managed SAE and lab data reconciliation for multiple Phase III studies; aligned data deliverables with regulatory timelines and study protocols.
- Drafted CDMPs, DVPs, and eCRF guidelines while ensuring compliance with CDISC/CDASH and SDTM standards.
- Demonstrated adaptability and time management by balancing multiple study timelines and resolving EDC-related issues promptly.
- Supported CRF validation and user acceptance testing by coordinating with external vendors and resolving system issues.
- Facilitated collaborative efforts between data, clinical, and safety teams to optimize communication and data accuracy.

Brilliant Bio Pharma, India

Oct 2020 – Aug 2021

Clinical Data Associate Intern

- Developed CRFs and UAT scripts in Medidata Rave for oncology and cardiovascular trials, showcasing attention to detail and technical accuracy.
- Conducted data listing reviews, reconciliation activities, and protocol-aligned documentation preparation.
- Supported interdepartmental initiatives and contributed to a collaborative work culture.
- Initiated SQL-based data checks and reporting, reinforcing a proactive approach to learning and technical improvement.

EDUCATION

Master of Science in Health Informatics

Dec 2024

Sacred Heart University, Fairfield, CT

Doctor of Pharmacy (Pharm.D.)

Apr 2021

Sri Venkateswara College of Pharmacy, India

CERTIFICATIONS

- **Data Analytics** – Cisco Networking Academy
- **Clinical Pharmacy** – Avenida
- **Good Clinical Practice (GCP)** – NIH-NIDA
- **Introduction to Clinical Research** – NIH
