
BHUMI AMIN

Sparta, NJ 07871 | 862-384-5055 | bhumiamin2508@gmail.com

Summary

Certified Clinical Research and Health Informatics Professional with a strong foundation in medical data abstraction, EMR workflows, patient-centered care, and team coordination. Adept at leading clinic-based data initiatives, training healthcare staff, and ensuring adherence to documentation and coding standards. Proficient in EHR platforms, data validation, regulatory compliance, and patient interaction. Seeking to contribute to innovative, quality-focused care as a Lead Clinic Informatics Specialist.

SKILLS

- **Clinical Data Abstraction & Review:** Chart review, case abstraction, EMR data validation, discrepancy management, data reconciliation.
- **EMR & Clinical Systems:** Proficient in EMR/EHR systems, data abstraction workflows, familiarity with CRF and registry datasets.
- **Regulatory Compliance:** Knowledge of GCP, HIPAA, FDA, ICH-GCP, privacy, and data security standards.
- **Data Analysis & Reporting:** SQL, Python (Pandas, NumPy), Power BI, Tableau, query resolution, data listings generation.
- **Training & Collaboration:** Experience supporting data quality audits, providing feedback on data discrepancies, collaborating with study teams.
- Patient Screening, Consent, Enrollment & Retention
- Phlebotomy (Blood Draws) & Blood Pressure Measurement

Certifications

- Clinical Trials: Good Clinical Practice Specialization
- Microsoft Power BI Analyst
- IBM Data Analyst
- IBM Data Science
- Preparing Data for Analysis with Microsoft Excel
- Python for Data Science, AI & Development
- Homeopathic Physician
- Healthcare IT Support
- Medical Billing and Coding Fundamentals
- Systematic Review and Meta-Analysis – Ongoing (Coursera/Udemy)

Education

Rutgers School of Health Professions - Piscataway, NJ | Master of Science
Health Informatics, 05/2025

Baroda Homoeopathic Medical College - India | Bachelor of Science
Bachelor of Homeopathic Medicine and Surgery, 07/2019

Experience

DATA ANALYST INTERN | 01/2022 - 07/2022

Lifeline Hospital - Vadodara, India

- Led documentation and data abstraction for clinical encounters and supported scribe functions across departments.
- Conducted patient vitals, BP monitoring, and blood specimen collection aligned with workflow protocols.
- Trained new clinical assistants in EMR usage, data quality checks, and documentation consistency.
- Supported real-time coding and EHR documentation for clinical audits and billing accuracy.

PHYSICIAN ASSISTANT & CLINICAL DATA SUPPORT | 01/2021 - 12/2021

Lifeline Hospital - Vadodara, India

- Managed clinical data in EMR systems ensuring data accuracy and consistency in alignment with GCP and privacy guidelines.
- Performed data reconciliation and supported documentation quality improvement initiatives for clinical teams.
- Conducted patient **vital signs monitoring, including blood pressure**, temperature, and oxygen saturation.
- Assisted in **blood specimen collection** and ensured timely delivery to laboratories.
- Supported patient care coordination and ensured **accurate, real-time clinical data entry** for epidemiological tracking.
- Collaborated with physicians and healthcare teams to optimize patient treatment plans.

CLINICAL ASSISTANT – NICU & COVID UNIT | 12/2019 - 07/2020

Parul Institute of Medical Sciences & Research

- Provided bedside care and feeding support for critically ill neonates in the NICU.
- Assisted in feeding preparation, feeding record documentation, and collaboration with lactation consultants.
- Supported the clinical team during COVID care, managing real-time patient data and vital sign monitoring for epidemiological reporting.
- Collaborated with nurses and physicians to streamline care delivery and ensure adherence to protocols and safety standards.

MEDICAL OFFICER INTERN/DATA QUALITY SUPPORT | 07/2018 - 11/2019

Samarpan Hospital

- Managed patient medical records and improved documentation processes to enhance clinical decision-making
- Coordinated referrals and ensured proper coding for insurance claims
- Managed medical records, ensured **timely data entry and coding accuracy**.
- Coordinated referrals and provided support in clinical trial workflows.
- Assisted in patient **screening and consent for treatment and procedures**.

PROJECTS & DATA ENGINEERING EXPERIENCE

Healthcare Insurance Management System (SQL Project)

- Designed a clinical insurance management database schema and implemented SQL queries to support data validation, claims, and reporting.

Heart Disease Prediction using Python (Project)

- Conducted data cleaning, validation, and predictive modeling for heart disease datasets using Python and presented data quality findings through visualizations.

SQL Data Analysis & Reporting

- Created data listings and automated reporting using SQL and Python to enhance data review for stakeholders.
