PROFESSIONAL SUMMARY

Analytical and detail-oriented Healthcare Data Analyst with over 5 years of experience supporting clinical, operational, and research teams through data-driven insights and report development. Adept at building interactive dashboards, performing data migration and validation, and developing enterprise-level reports using SQL Server, Oracle, Power BI, and Crystal Reports. Proven ability to lead data integration and visualization efforts in fast-paced healthcare environments with a strong emphasis on EMR systems, predictive modeling, and regulatory compliance. Skilled in translating complex data into actionable insight.

PROFESSIONAL EXPERIENCE

Research Assistant-Health Data and Reporting Analyst(Remote) | *Michigan Technological University* May 2023 – Present

- Developed and enhanced enterprise reports and dashboards using Power BI to support quality improvement and clinical decision-making.
- Collaborated with IT, clinical, and analytics teams to support data validation and structured report generation using SQL Server and academic data sources.
- Built and optimized SQL queries across EMR and research systems, improving reporting efficiency and standardization.
- Participated in system-level data migration projects and helped integrate datasets across platforms with attention to data governance.
- Authored high-level narrative summaries and technical documentation for senior stakeholders and operational leaders.
- Provided peer coaching and technical guidance to junior analysts on data wrangling, reporting logic, and data structure modeling.
- Conducted end-to-end ETL processes for integrating Oracle and SQL Server datasets, ensuring accurate transformation and alignment with clinical reporting standards.
- Designed automated data pipelines and scheduled refreshes for key Power BI dashboards, reducing manual workload and improving real-time data accessibility for clinical teams.

Clinical Data Coordinator | *Government Hospital*

Sep 2020- Sep 2022 India

- Supported SQL-based reporting of COVID-19 surveillance and clinical trends using hospital data systems.
- Generated standardized extracts for state reporting and conducted data audits to ensure accuracy and format compliance.
- Created Crystal Reports for daily case tracking and internal dashboarding.
- Collaborated on hospital-wide data cleanup and Oracle to EHR data migration for public health analytics.

Healthcare Data Analyst | *Krishna Dental Hospital*

July 2018 – July 2020 India

- Designed internal performance dashboards using Excel and Power BI, aligned with provider productivity and billing indicators.
- Extracted and normalized EMR datasets using SQL queries to support clinical audit readiness and patient care workflows.
- Participated in migrating practice data to a structured reporting database, including schema mapping and data quality checks.

EDUCATION

Michigan Technological University, *Houghton, USA*

January 2023 – December 2024

Master of Science in Health Informatics | GPA: 3.96

Relevant Coursework: Applied Computing in Python, Introduction to Health Informatics, Security and Privacy, Systems Analysis and Design, Artificial Intelligence in Healthcare, Applied Machine Learning, Clinical Decision Support modeling, Info Governance & Risk Management, Population Health Informatics, Introduction to Big Data Analytics, EHR Systems.

DR.NTRUHS, *AP, India*

June 2016 – March 2020

Bachelor of Dental Surgery | GPA: 3.82

TECHNICAL SKILL

- Proficient in Power BI, Crystal Reports, Tableau, and advanced Excel for healthcare analytics and dashboard creation.
- Experienced with MS SQL Server, Oracle, and Snowflake for querying and data integration.
- Skilled in SQL (advanced) and Python (basic) for data processing and reporting automation.
- Hands-on with EPIC, Open Dental, and EMR systems; knowledgeable in ICD-10, CPT, HCPCS, and healthcare data standards.
- Strong understanding of HIPAA compliance, data validation, predictive modeling, and clinical performance metrics.

CERTIFICATIONS

Public Health Informatics, Artificial Intelligence in Healthcare, Foundations in Health Informatics, Python Programming Certification, Security and Privacy in Informatics, EHR Certification(In Progress), ICD 10.
