SUMMARY

Physician and Master of Public Health (MPH) candidate with over 5 years of clinical experience and a strong foundation in research coordination, data analysis, and regulatory compliance. Proficient in R, Stata, REDCap, and EndNote. Skilled in supporting randomized controlled trials, coordinating interdisciplinary teams, managing EHR and participant data, and contributing to manuscript development. Committed to advancing patient-centered care through evidence-based research.

EDUCATION

NYU School of Global Public Health	New York, NY
Master of Public Health (MPH) in Epidemiology	MAY 2025
GPA: 3.9/4	

Bharati Vidyapeeth Medical College and Hospital	Sangli, India
Bachelor of Medicine and Bachelor of Surgery (MBBS)	Oct 2018

Relevant Coursework: Epidemiology Methods & Design – 1, 2 and, 3, Biostatistics, Regression (Linear & Categorical), Social & Behavioral Health, Social Epidemiology, Health Policy & Management, Psychometric Measurement, Global Health Nutrition, Emerging Diseases & Bioterrorism, Non-Communicable Diseases, Thesis project.

KEY SKILLS

Epidemiology, Biostatistics, Data Analysis, R Programming, STATA, Cayuse, Scientific Writing, REDCAP, Research & Manuscript Editing, Public Health Policy, Psychometric Analysis, Health Policy & Management, Global Health Research, Team Coordination, Microsoft Excel, PowerPoint, Problem Solving, Multitasking, Organizational & Leadership Skills, Communication, Decision Making, Time Management

AWARDS AND HONORS

- NYU MPH Scholarship
- GPH Practice Scholars Award

EXPERIENCE

AIRE Lab, NYU School of Global Public Health	Remote (Atlanta, GA)
Clinical Research Intern & Research Affiliate	June 2025 – Present
• Supporting ongoing public health research through data analysis, literature synthesis, and stakeholder engagement • Assisting with visualization development, slide decks, and academic dissemination • Continuing research involvement under faculty mentorship to expand skills in statistical modeling, manuscript preparation, and interdisciplinary collaboration	

AIRE Lab, NYU School of Global Public Health	New York, USA
Graduate Research Assistant	Sept 2024-May 2025
• Supported ongoing NIH-funded clinical trials focused on tobacco cessation and comorbid conditions (HIV, TB, diabetes) in Vietnam and Uganda • Conducted data management tasks including cleaning, merging, and validation of multi-country trial datasets using Stata • Generated descriptive statistics, risk stratification outputs, and diagnostic accuracy metrics for project deliverables • Created presentation-ready figures and slide decks for stakeholder meetings and academic dissemination • Coordinated meetings with cross-functional teams and maintain regulatory and IRB documentation • Assisted with manuscript drafting, literature synthesis, and preparation of tables and figures for publication • Gained familiarity with Cayuse through coursework and collaborative IRB support	

AIRE Lab, NYU School of Global Public Health	New York, USA
Global Research Coordinator (Intern)- Clinical Projects	Summer 2024
• Contributed to multiple clinical trials on tobacco cessation and mental health among people living with HIV and TB in Vietnam and Uganda. • Assisted in data cleaning, merging, and management across large datasets; conducted descriptive and diagnostic analyses using Stata and R.	

- Produced tables, visualizations, and performed sensitivity/specificity analysis to evaluate diagnostic tools for identifying true diabetes in TB patients.
- Collaborated with interdisciplinary teams to assess intervention fidelity, coordinate team meetings, and maintain IRB-related documentation.
- Supported manuscript development for peer-reviewed publication and conducted targeted literature reviews.

Clinical Experience – Physician

India

Clinical Practice

Aug 2017 – April 2023

- Independently managed outpatient and inpatient care, including infectious disease cases (e.g., COVID-19, tuberculosis) and emergency cases.
- Supervised junior staff, nursing staff and coordinated with specialty care for high-risk patients.
- Delivered health education and conducted patient follow-ups for chronic disease management.
- Participated in hospital-based COVID-19 clinical research, supporting patient screening, informed consent, data collection, and mental health survey administration during follow-ups.
