

BHAVYA NALLAMOTHU

+1 (573)-540-7548 bhavyan0804@gmail.com [Bhavya Nallamothu](#)

Passionate about leveraging data analytics, AI/ML, and technology to drive innovation, optimize decision-making, and enhance outcomes across industries.

EDUCATION

University of Missouri | *Master of science in Health Informatics* | Columbia, Missouri **AUG 2023 - MAY 2025**
Vignan Institute of Pharmaceutical Technology | *Doctor of Pharmacy (Pharm D)* | Vizag, India **AUG 2016 – SEP 2022**

Courses : Clinical Decision Support | Health Data Analytics | EHR & Database Management | AI & Bioinformatics | Clinical Research & Data Mining | Healthcare Project Management | Pharmacovigilance | Biostatistics & Evidence-Based Medicine

SKILLS

Data Management & Analytics: SQL querying, business intelligence, healthcare data integration
EHR & Clinical Systems: i2b2, REDCap, health information systems
Programming & AI/ML: Python (basic), machine learning, bioinformatics, AI/ML in healthcare
Decision Support & Ontologies: Protégé, SWI-Prolog, CDSS development
Clinical & Health Informatics: Retrospective analysis, survival analysis, predictive modeling, health outcomes research
Patient Care & Public Health: Interdisciplinary collaboration, counseling, healthcare policy compliance
Tools & Software: Microsoft Office, Google Workspace, cloud computing
Soft Skills: Communication, problem-solving, critical thinking, teamwork, leadership, analytical reasoning, and time management

PROFESSIONAL EXPERIENCE

Health Informatics Support Specialist | **School of Medicine** | **University of Missouri-Columbia** **AUG 2023 – APR 2025**

- Provided technical support and troubleshooting for health informatics systems.
- Assisted in EHR data management, software maintenance, and system optimization.
- Recognized for efficient problem-solving, documentation, and customer support.

Clinical Analyst | **Vrindaa Hospital** | **India** **OCT 2022 – JUN 2023**

- Managed oncology clinical trial data, ensuring GCP compliance.
- Integrated EHRs, lab results, and genomic data to support precision medicine.
- Conducted health education and medication counseling in underserved communities.

Clinical Data Analyst intern | **Visakha institute of medical sciences** | **India** **OCT 2021 - SEPT 2022**

- Conducted data validation, trend analysis, and clinical decision-making support.
- Developed medication adherence reports for hospital-based analytics.

RESEARCH & PROJECTS

Clinical and Genomic Factors Influencing Duration of HER2-Targeted Therapy in MBC **AUG 2024 – MAY 2025**

- Conducted retrospective analysis on HER2-targeted therapies in metastatic breast cancer.
- Applied logistic regression & survival analysis (Kaplan-Meier method) to assess clinical & genomic factors.
- Developed correlation heatmaps, feature importance plots, and predictive models (85% accuracy).
- Findings contribute to personalized treatment strategies for HER2-positive patients.

HER2-Positive Breast Cancer Recurrence Risk Assessment System **SEPT 2024 – DEC 2024**

- Developed REDCap-based forms to track HER2 therapy, clinical/genetic markers, and recurrence data.
- Created a structured dataset for recurrence risk analysis, supporting clinical decision-making.

Breast Reconstruction Decision Support Tool **SEPT 2024 – DEC 2024**

- Designed a knowledge-based CDSS integrating patient data & clinical guidelines for personalized treatment recommendations.
- Aimed to enhance shared decision-making and improve patient outcomes.

Evaluation of Drug-Drug Interactions in Hospitalized Patients **AUG 2021 – MAY 2022**

- Conducted a prospective observational study on drug-drug interactions (DDIs) in inpatients using Micromedex & Lexicomp, assessing severity and identifying trends.
- Processed clinical data, developed structured reports, and recommended interventions to improve medication safety and clinical decision-making.

PUBLICATION AND CERTIFICATIONS

- Effect of Comorbidities on Prognosis in Elderly vs. Non-Elderly with COVID-19: A Retrospective Study*, Co Journal of Fundamental & Comparative Research, Vol. IX, No. 2(II), 2022. ISSN: 2277-7067.
- Stanford University Certifications (Feb 2025):** Fundamentals of Data Science in Precision Medicine and Cloud Computing | Fundamentals of AI/ML in Precision Medicine.
