Professional Experience

UI/UX Designer

May'2021 – Nov'2022

SAMSUNG, India

- UI Design & Development: Designed user interfaces for a B2B enterprise software application, enhancing user interaction and satisfaction.
- React Development: Implemented responsive and accessible UI components using React, ensuring cross-browser compatibility and performance.
- Pixel-Perfect Implementation: Built pixel-perfect designs into the front-end codebase, ensuring alignment with design specifications.
- Research & Usability Testing: Conducted research and usability testing to gather insights and iterate on designs for optimal user experience.

Project History

- **Amazon Air App - Flight Ticket Booking (Figma)**
- Utilized Figma to conceptualize, design, and prototype an intuitive user interface for the Amazon Air App, enabling seamless booking of flight tickets
- Integrated backend functionalities into the app, allowing users to effortlessly search, select, and book flight tickets within the Amazon Air network.
- Designed the Amazon Air App's compatibility across multiple platforms, iOS and Android, by adopting responsive design techniques
- **UB Events - Powered Campus Event Finder (Marvel)**
- Built UB Event, a campus-focused mobile application on Marvel platform, providing a centralized hub for discovering and accessing upcoming events within the university community.
- Engineered backend functionalities for event data management and user engagement.
- Collaborated with Students to gather feedback, iterating for optimal user experience.

Education

Master of Science in Computer science

Jan' 2024 – Present

University of Bridgeport, Bridgeport

Bachelor of Technology in Electronics and Communication Engineering

May 2022

Jawaharlal Nehru Technological university, India
