---

Data Analyst with 4 years of experience in sales operations, business analytics and market research. Skilled in turning complex data into actionable insights, improving data quality, automating reports and driving cross-functional decision-making.

## Skills:

- Programming Tools: Python (Pandas, NumPy, scikit-learn), SQL, Microsoft Excel, Google Data Analytics, SPSS.
- Statistical & Machine Learning Techniques: Regression Analysis, Hypothesis Testing, Clustering, ANOVA, A/B Testing, Decision Trees
- Data Visualization & BI Tools: Power BI, Tableau, Looker Studio, Microsoft Powerpoint
- Database & CRM Systems: Oracle DB, SAP, Salesforce, Apollo, D&B Hoovers, Plauti, Gong
- Project & Workflow Management: Agile Methodology, Scrum Framework, SDLC, Jira, Microsoft Office Suite

## Professional Experience:

### Coherent Corp.

Aug 2024-Apr 2025

#### Sales Operations and Data Quality Analyst Intern

- Collaborated in an Agile environment to unify data from 3 business segments, reporting accuracy up by 40% and enabling faster ad-hoc insights.
- Reduced **account duplication** and **naming inconsistencies** from 50,000+ to 150 in under 3 months using **D&B Hoovers** and **Plauti**, enhancing CRM data quality and pipeline efficiency.
- Analyzed **Salesforce CPQ** and contract pricing data to improve revenue recognition accuracy, supporting month-end compensation planning.
- Built and maintained **Power BI dashboards** from SharePoint data to track internal page engagement across 102 pages; delivered insights on employee traffic and click rates that influenced content optimization and user experience strategy.

### Razorpay

#### Customer Success Associate

Dec 2021-Mar2022

- Designed and implemented a CRM-based onboarding template, reducing turnaround time by 25% through standardized workflows and improved cross-functional coordination.
- Resolved 50+ onboarding issues via **JIRA**, identifying recurring trends to inform **process enhancements** and reduce future support load.

### Simplilearn Pvt Ltd.

Mar 2021 – Nov 2021

#### Inside Sales Specialist

- Onboarded leads through various channels and identified cross-selling/up-selling opportunities using **Gong** and **Zoominfo**, contributing to a revenue increase of \$200K through analytical insight.
- Compiled and presented monthly sales reports using **pivot tables** and **VLOOKUP in Excel** to analyze trends and identify high-potential leads.
- Coordinated pre-sales to post-sales support for assigned products, ensuring cohesive operations and effective follow-up reporting.

### ITC Ltd.

Apr 2019- Feb 2021

#### Sales Officer

- Analyzed large datasets using **SQL** to build sales **forecasting dashboards**, improving **ETL** processes and inventory planning accuracy.
- Unlocked new market opportunities through **Zoominfo** and **Outreach** insights and **led** a 10-member team to execute a 100% product launch under resource constraints.
- Boosted personal care retail sales from 25% to 75% by designing data-driven **go-to-market strategies**.
- Streamlined sales **incentive tracking** and **rebate analysis**, aligning distributor performance with business goals for quarterly reviews.

## Education:

**Master of Science in Business Analytics (STEM)**- San Francisco State University, AACSB Accredited, California, U.S.

**MBA with Marketing major**- ICFAI Business School (IBS) - Mumbai, India

**Bachelor of Engineering in Computer Science**- Mumbai University(MU) - Mumbai, India

## Projects:

**SBA Loan Prediction project - 2024 CSU Systemwide Business Analytics Competition:** Built a predictive model for SBA loan approvals using machine learning (Random Forest, Gradient Boosting, k-NN, etc.), achieving ~99.4% accuracy. Performed data preprocessing, feature engineering, and cost-sensitive analysis to optimize default risk prediction.

**AI-Driven CRM Optimization City and County of San Francisco – Controller’s Office:** Analyzed 245K+ CRM records to identify data quality gaps and structure inputs for an AI chatbot, enabling faster response times, system optimization, and improved stakeholder satisfaction through intelligent automation.
