

GEORGE SHAW, Logistics Analyst

Tracy, 95376, US, (510) 712-7783, george.eshaw24@yahoo.com

SUMMARY

Results-driven Logistics Analyst with over 8 years of experience in inventory control and supply chain management. Proven track record of enhancing operational efficiency, exemplified by a 60% improvement in on-time receipt rates at Impossible Foods. Proficient in utilizing TMS, WMS, and ERP systems for data analysis, fostering continuous improvement in logistics performance. Expertise in process standardization and data accuracy, ensuring compliance with transportation regulations. Committed to delivering value by optimizing logistics processes and driving innovative solutions.

WORK EXPERIENCE

09/2020 – Present

Inventory Control Specialist / Logistics Analyst, Impossible Foods Oakland

- Spearhead material readiness initiatives by managing raw material inventory across 3PL partners, improving on-time receipt from 34% to 60%.
- Enhance process standardization through collaboration on SOP development for inventory reconciliation, resulting in improved data accuracy.
- Executed cycle counts and scrutinized discrepancies between on-hand stock and system records, enhancing accuracy.
- Partner with cost accounting teams to generate precise financial inventory reports for monthly management reviews.
- Developed and scaled manufacturing reporting processes, including finished goods inventory reporting and BOM consumption, thereby improving end-of-month metrics.
- Analyzed supply chain and transportation data to identify inefficiencies and recommend actionable improvements.
- Monitored logistics metrics, including delivery times, freight costs, and inventory turnover, to ensure optimal performance.
- Created and maintained comprehensive reports, dashboards, and KPIs for logistics performance evaluation.
- Collaborated with carriers, vendors, and internal teams to resolve operational issues and elevate service levels.
- Supported route optimization, load planning, and carrier selection strategies, enhancing efficiency.
- Ensured compliance with transportation regulations and company policies to mitigate risk.
- Utilized TMS, WMS, ERP, and Excel-based tools for data analysis and reporting.
- Participated in logistics projects and continuous improvement initiatives to streamline operations.

06/2017 – 08/2021

Logistics Technician IV, Air Liquide

Fremont

- Supervised receiving and documentation processes, inputting serial numbers and lot information into ERP systems to bolster receipt accuracy.
- Identified process inefficiencies and communicated findings to management, driving continuous improvement.
- Conducted regular inventory audits and ensured accurate material tracking at both on-site and off-site locations.
- Processed shipping and receiving documents, ensuring adherence to company standards and regulations.

04/2015 – 05/2017	Material Technician / Warehouse Supervisor, Sardo and Sons	Hayward
	• Demonstrated strong leadership while overseeing a team of seven material technicians, achieving daily, weekly, and monthly performance targets. • Coordinated shipping and receiving operations, including truck dispatch, to ensure timely deliveries and pickups while meeting customer compliance inspections. • Optimized workflows through the implementation of controlled SAP documentation processes, enhancing operational efficiency.	
09/2011 – 03/2015	Senior Material Handler, EMD Millipore (Millipore Sigma)	Hayward
	• Conducted material handling and inventory control between departments to ensure production requirements were consistently met. • Performed weekly cycle counts to maintain and enhance inventory accuracy. • Utilized ERP data management systems to efficiently track and report material movements.
