EDUCATION

Georgia Institute of Technology

Master of Science in Computer Science (Online/Part-Time)

August 2024 – December 2026

Atlanta, GA

L.J. Institute of Engineering and Technology

Bachelor of Engineering in Computer Engineering

June 2019 – June 2023

Ahmedabad, India

EXPERIENCE

Hash Media

Machine Learning Engineer Intern

January 2023 – May 2023

Ahmedabad, India

- Developed and deployed machine learning models using Azure Machine Learning Studio and Azure Databricks.
- Collaborated with data scientists and engineers to preprocess data using Azure Data Factory and build predictive models.
- Deployed models as web services using Azure ML Endpoints and Azure Functions, ensuring scalability and reliability.
- Conducted workshops and training sessions for team members on best practices in using Azure ML tools and services.

Maxgen Technologies

Data Science Intern

May 2022 – August 2022

Ahmedabad, India

- Maintained data accuracy and integrity across campaigns by implementing rigorous data validation procedures.
- Performed regression analyses to predict trends, aiding in proactive business strategies.
- Built and maintained interactive dashboards with Tableau, increasing stakeholder engagement by 20%.
- Created comprehensive data reports using SQL, which expedited monthly performance review processes by 50%.

PROJECTS

Song Play Analysis for Sparkify | Built a data modeling and ETL pipeline using Apache Cassandra

Stock Analysis: Bayesian Statistics | Statistical Analysis on Apple stock prices using Gaussian Processes in PyMC

Home Price Prediction | Developed regression models (Linear, Ridge, Lasso, ElasticNet) for real estate pricing

Cancer Analysis | Classified cancer types using KMeans and Agglomerative Clustering with silhouette scores

Airline Customer Satisfaction | Created a Decision Tree Classifier to assess customer satisfaction

Loan Status Classification | Predicted loan approvals with a Naïve Bayes model and feature encoding

Hotel Cancellation Prediction | Built a Random Forest model to predict booking cancellations

Insurance Prediction | Estimated insurance costs using linear regression and evaluation metrics

Loan Applicant Credit Risk | Assessed credit risk with K-Nearest Neighbors (KNN)

TECHNICAL SKILLS

Languages: Python, Java, R, SQL, PHP, HTML/CSS, JavaScript

Databases: MySQL, PostgreSQL, MongoDB, Apache Cassandra

Machine Learning/AI Frameworks: TensorFlow, PyTorch, Keras, Scikit-learn, XGBoost, LightGBM

Statistical Methods: Bayesian Statistics (PyMC), Linear Regression (Ridge, Lasso, ElasticNet), Naïve Bayes, Decision Trees, Random Forests, KNN, Agglomerative Clustering

Key Evaluation Metrics: Mean Squared Error (MSE), Mean Absolute Error (MAE), R^2 Score, silhouette score

Data Analysis and Visualization: Pandas, NumPy, SciPy, Matplotlib, Seaborn, Plotly, Statsmodels, PyMC4, Tableau, Power BI

Cloud Platforms: Microsoft Azure (Azure ML, Azure Data Factory, Azure Blob Storage, Databricks, Azure Synapse Analytics)

ETL and Pipeline Tools: Apache Cassandra, MageAI, Apache Airflow

Other Tools: Git, Docker, JIRA, VS Code, Jupyter Notebook, BigQuery

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900)

Microsoft Certified: Azure Data Scientist Associate (DP-100)

LEADERSHIP / EXTRACURRICULAR

Phoenix Club

Vice President

December 2021 – December 2022

L.J. Institute of Engineering and Technology

- Developed comprehensive curriculum for Web Development and Cybersecurity workshops.
- Mentored club members in their roles, providing guidance and encouragement to enhance their leadership skills.
- Led chapter of 30+ members to work towards goals that improve and promote community service, academics, and unity.
