

ESMERALDA J HERNANDEZ DE LOA

Alameda, CA | (510) 926-1106 | esme51403@gmail.com | www.linkedin.com/in/esmeraldahd/

EDUCATION

University of San Francisco (USFCA), San Francisco, CA

August 2021 - May 2025

B.S., Business Administration, Major: Business Analytics, Minor: Computer Science

GPA: 3.83 | Dean's Honor Roll | School of Management Honors Program (SOMHP)

PROJECTS

Machine Learning Supply Chain Project, USFCA

March 2025 - May 2025

- Led a 3-person team in a full-cycle ML project to classify late e-commerce shipments, achieving 96% accuracy with CART.
- Managed scope, delegated tasks, and ran weekly stand-ups while conducting data cleaning and feature engineering on a 180K+ row dataset.
- Trained and tuned models (CART, Random Forest, Gradient Boosting, KNN) using GridSearchCV and 5-fold cross-validation.
- Interpreted model outputs to uncover delay drivers (e.g., order day, shipping method), enabling actionable logistics improvements.

Seva Vision Center Evaluation Project

February 2025 - May 2025

- Led development and delivery of a Power BI dashboard for 400+ global Vision Centers, uncovering insights on access equity, patient demographics, and long-term sustainability.
- Partnered with cross-functional stakeholders to define KPIs and reporting needs, ensuring alignment with Seva Foundation's operational goals.
- Enabled data-driven decision-making across 20+ countries by surfacing actionable insights and improving visibility into program impact.

LEADERSHIP EXPERIENCE

President, SOM Honors Program Program, USFCA

May 2024 - May 2025

- Directed a 25-member executive board across 4 departments (Finance, Marketing, Internal Engagement, External Relations), setting strategic goals and overseeing execution.
- Secured new corporate partnerships, increased program funding, and fostered a strong alumni network to support member success.
- Mentored 60+ student members, leading initiatives aligned with four core pillars: Academics, Professionalism, Service, and Social Impact.
- Collaborated with the executive board to plan and prioritize annual budget spending, evaluating resource allocation based on program value, impact, and alignment with strategic goals.

CERTIFICATES

Design Thinking Consulting, Malloy Group, USFCA

February 2024

- Applied human-centered frameworks and iterative ideation in innovation consulting.

SKILLS

- Languages: Python, R, SQL, Java
- Tools: Power BI, Tableau, Snowflake, Excel, Git, Jupyter, Google Workspace
- Machine Learning: scikit-learn, TensorFlow, PyTorch, Keras
- Other: Feature Engineering, Cross-Validation, Data Cleaning, Business Case Analysis
