

ESWAR KOMIRISETTY

Data Analyst | Machine Learning, Big Data & Business Intelligence

Email: eswarkomirisetty84@gmail.com / Contact +1 (947) 948 7342 / [LinkedIn](#)

PROFESSIONAL SUMMARY:

- Over all 3+ years of experience as a Data Analyst with expertise in **data analysis, machine learning, and business intelligence** across banking, finance, and marketing analytics domains.
- Skilled in **end-to-end data processing, ETL pipeline development, and feature engineering** for large-scale relational and NoSQL datasets.
- Proficient in **SQL, Python, R, Spark/PySpark, Hadoop/Hive, and cloud platforms (AWS, Google BigQuery)** to extract, clean, transform, and analyze complex datasets.
- Experienced in **statistical analysis, A/B testing, predictive modeling, and deployment of ML models** (Random Forest, XGBoost, Decision Trees, Logistic Regression, SVM, Neural Networks) for actionable insights.
- Developed **dashboards and visualizations in Tableau, Matplotlib, Seaborn, and Plotly Dash** to track KPIs, optimize retention, and improve customer engagement.
- Strong **soft skills** including analytical thinking, problem-solving, effective communication, teamwork, mentoring, stakeholder management, adaptability, and Agile methodology.

CORE SKILLS:

- End-to-end data analysis and exploratory data analysis (EDA)
- ETL pipeline design and implementation for relational and NoSQL databases
- Predictive modeling, feature engineering, and machine learning model deployment
- A/B testing, experimental design, and performance metrics analysis
- Dashboard development and data visualization for actionable insights
- Data cleaning, validation, and preprocessing for large-scale datasets
- Translating business requirements into technical solutions
- Cross-functional collaboration and reporting

TECHNICAL SKILLS:

- **Programming & Data Analysis:** Python, Pandas, NumPy, R, Bash, SQL, MySQL, MS SQL Server, PostgreSQL
- **Big Data & Cloud:** Spark/PySpark, Hadoop, HDFS, Hive, AWS, S3, EC2, RDS, Redshift, Google BigQuery
- **ETL & Workflow Automation:** SSIS, Apache Airflow, Excel VBA
- **Machine Learning & AI:** Scikit-learn, SparkML, XGBoost, TensorFlow, Random Forest, Decision Trees, Logistic Regression, SVM, Neural Networks, MLflow
- **Visualization & BI Tools:** Tableau, Matplotlib, Seaborn, Plotly Dash, Excel
- **Version Control & Collaboration:** Git, Google Sheets/Docs/Slides
- **Statistical Analysis:** Hypothesis testing, regression, ANOVA, MANOVA, causal inference, Bayesian analysis

PROFESSIONAL EXPERIENCE:

Wells Fargo, Texas | Mar 2024 – Present

Data Analyst - ML

Responsibilities:

- **End-to-end data analysis** to optimize **user experience, retention, and customer purchase behavior**.
- **Designed and executed complex SQL queries** subqueries, window functions, CTEs, **table schemas, stored procedures, and daily reporting pipelines**.
- **Built ETL pipelines** using Python, Pandas, Spark/PySpark, Airflow, Hadoop, HDFS, Hive to process **large-scale relational and NoSQL datasets** MongoDB, AWS S3, RDS, Redshift.

- **Developed real-time dashboards** in Tableau and **interactive Python visualizations** Matplotlib, Seaborn, Plotly Dash to track **KPIs, A/B tests, and product performance**.
- **Conducted statistical analysis:** hypothesis testing, regression, causal inference, and Bayesian analysis using **R and Python**.
- **Designed metrics for A/B testing**, calculated **sample sizes**, analyzed results, and provided **actionable recommendations** for feature optimization and marketing campaigns.
- **Performed feature engineering** on user logs and transaction data for **predictive modeling**.
- **Implemented machine learning models** Random Forest, XGBoost, Decision Trees, Logistic Regression, SVM, and Neural Networks with **hyperparameter tuning and model optimization** to improve predictive accuracy.
- **Evaluated models** using ROC-AUC, Precision, Recall, F1-score and **integrated models into production pipelines** using MLflow and Airflow.
- **Automated data validation, preprocessing, and reporting workflows**, translating business requirements into **efficient technical solutions** to improve **data quality and productivity**.

Environment: Python, R, SQL, Bash, Tableau, Jupyter Notebook, Excel, Git, MySQL, MS SQL Server, PostgreSQL, MongoDB, AWS (S3, EC2, RDS, Redshift), Hadoop, HDFS, Hive, Spark/PySpark, Apache Airflow, Scikit-learn, SparkML, XGBoost, TensorFlow, Plotly Dash, Matplotlib, Seaborn, MLflow, BigQuery

Conduent, India | Aug 2021 – Aug 2023

Data Analyst

Responsibilities:

- **Performed quantitative and exploratory data analysis (EDA)** on **credit portfolios and email campaign data** to identify patterns and actionable insights.
- **Developed interactive dashboards and storyboards** in Tableau to visualize **key business metrics, trends, and campaign performance**.
- **Wrote complex SQL queries** joins, subqueries, window functions, CTEs to **aggregate and analyze data from multiple sources**.
- **Built ETL pipelines** using SSIS, Python, and Excel for **data extraction, transformation, loading, and reporting**.
- **Conducted statistical analysis** including T-test, F-test, ANOVA, MANOVA, confidence intervals, and distribution identification using **R**.
- **Automated data collection, cleaning, and transformation** using Python Pandas, R, and Excel VBA.
- **Monitored email campaign performance**, optimized delivery timing, and analyzed **A/B test results** using R and Tableau, providing **actionable recommendations**.
- **Cleaned, imputed missing values, and validated datasets** from multiple sources including CSV, JSON, Excel, and SQL databases.
- **Created reports and dashboards** to track **KPIs, email engagement, and operational performance** for management.
- **Collaborated with cross-functional teams** using Google Docs, Sheets, and Slides for **documentation and reporting insights**.

Environment: R, Python (Pandas), SQL Server, MySQL, Tableau, SSIS, MS Excel, VBA, Google, Sheets, Docs, Slides, Git

SOFT SKILLS:

- Strong Analytical & Problem-Solving Skills
- Effective Communication, Agile & Scrum Practices
- Stakeholder Management
- Adaptability, Attention to Detail
- Time Management
- Mentoring & Knowledge Sharing
- Teamwork
- Confidentiality

EDUCATION: Master's in Computer science at University of Bridgeport- 2025
