

ESWAR TEJA MUSUNURU

Email: eswarteja027@gmail.com

Phone No: (509) 339 3282

Professional Summary:

Dedicated and hard-working professional with expertise in product design, manufacturing and HVAC control systems, now pivoting into data analytics and cloud technologies. Experienced in using **Power BI, Tableau and AWS** to build dashboards, automate reporting and deliver actionable insights for engineering and operations. Collaborative team player with a proven track record of delivering multiple, concurrent projects in fast-paced environments.

Education:

Master of Science in Information Technology

January 2024- August 2025

Indiana Wesleyan University

Marion, IN

Bachelor of Science in Mechanical Engineering

August 2015 - May 2019

P.V.P Siddhartha College

Vijayawada, India

Technical Skills:

- **Data Analytics & Visualization:** Power BI, Tableau, Alteryx, MS Excel
- **Cloud & Databases:** AWS (EC2, S3), MySQL, TSQL
- **Programming Languages:** Python, MATLAB
- **Manufacturing & Design:** AutoCAD, SOLIDWORKS, Siemens NX 11, Autodesk Revit
- **Process Improvement & Quality Control:** Lean Six Sigma, SPC, DMAIC, Root-Cause Analysis
- **Other Tools:** IT Infrastructure Security, MS Office Suite, Agile, JIRA

Certifications & Additional Skills

- Power BI PL-300 Certification (*pursued*)
- Pursuing AWS Cloud Practitioner Certification
- Pursuing Tableau Desktop Specialist Certification

- Pursuing Alteryx Core Certification
 - Lean Six Sigma Green Belt
 - HVAC Control Systems & Energy Efficiency
 - IT Infrastructure Security
 - Also pursuing additional IT certifications in **IT Service Management** and **Cloud Security Fundamentals** as part of MS IT program
-

Organizational Experience:

Associate Engineer

August 2019 – August 2021

Employer: RMSI, Hyderabad, India.

Roles & Achievements:

- Designed and implemented real-time HVAC control systems, improving energy efficiency by 20%.
- **Developed dashboards in Power BI and Tableau** to monitor system KPIs, reducing manual reporting by 30%.
- **Leveraged AWS (EC2 & S3)** for storing and automating operational data workflows.
- Analyzed sensor data to drive predictive maintenance, cutting unexpected failures by 15%.
- Produced 3D/2D models with SolidWorks and AutoCAD to enhance design accuracy.
- Coordinated with cross-functional teams using Agile methodologies and JIRA for project tracking.

Tools & Software Packages Used

Power BI, Tableau, AWS (EC2, S3), AutoCAD, SolidWorks, MATLAB, Python, MySQL, Minitab, MS Office Suite

Academic Projects:

- **HVAC Control & System Optimization:** Built a Power BI dashboard to visualize energy usage, detect inefficiencies, and recommend optimization strategies.
 - **Quality Control & Process Optimization:** Applied Minitab and SPC tools to analyze quality data; visualized defect trends in Tableau to support process improvements.
