

SOFTWARE ENGINEER

ETHAN SCHULTE

T: 480-622-4292 // E: schulte777@yahoo.com // <https://www.ethanschulte.dev/>

EXPERIENCE

2024 – 2025

FOOD TRUCK FINANCIAL PLATFORM CAPSTONE
Full Stack Software Developer
Designed and implemented a fully functional food truck financial platform using React Native to deploy code on the web as well as mobile devices. Managed backend infrastructure using SQL and developed API calls using REST to allow the front end to interact with the backend. Maintained version control and conducted thorough code reviews to ensure that high quality code was present and modern coding practices were being used.

EDUCATION

2021 – 2025

ARIZONA STATE UNIVERSITY
Bachelor of Science in Software Engineering
Database Management – SQL/MySQL
Engineering Secure Software Systems – Java
Mobile Systems – JavaScript, TypeScript, React Native
Human Computer Interaction
Web-Based Applications – HTML, JavaScript, TypeScript
Software Analysis and Design
Software Enterprise: Personal Process and Software Quality, Design and Process, Construction and Transition, Inception, Project and Process Management

PROFILE

Entry-level Software Engineer proficient in JavaScript, HTML, CSS, React, SQL, Python, and Java.
