PROFESSIONAL GOAL

Motivated full-time professional with a Bachelor of Science in Finance, driven by a commitment to personal growth and a desire to help build and contribute to a lasting legacy. Dedicated to fostering meaningful impact within a dynamic organization by leveraging strong work ethic, communication skills, and a forward-thinking mindset to support both individual and collective success.

COLLEGE HIGHLIGHT

A showcase project in college challenged me and my partner with a mock client with an underfunded defined benefit pension plan. As a result of our analysis, by progressively adjusting asset allocations and looking at constraints, we identified ways to bridge the funding gap ensuring the DBPP maintains a strong funding ratio of 95.8 percent.

WORK EXPERIENCE

Baxter, ECG Analysis Technician, Minneapolis, Minn. 01/06/25- present

- Performed detailed analysis and interpretation of ECG data to support cardiac monitoring and patient care. Utilized advanced telemetry and algorithm-based tools to identify abnormalities and generate high-quality reports for clinical use. Collaborated with mentors and internal review teams to ensure accuracy and compliance with established standards.

Dino's Mediterranean, team member, Edina, Minn. 04/2019 - 08/2023

- Supervised cold line ensuring food was prepared to safe food handling standards and kitchen cleanliness meet corporate standards.
- Collaborated with a team of three to five on strategies to increase customer satisfaction and online reviews.
- Demonstrated exceptional customer service skills resulting in multiple raises and loyal customers.

Unparalleled Parking, parking attendant, Mpls., Minn. 05/2021 - 12/2022

- My role was primarily at client Spoon and Stable.
 - Demonstrated solid safety and risk management commitment through an incident-free record tending to over 1,000 vehicles.
 - Successfully reduced the average wait time for valet services based upon communication with clients and knowing customer preferences.

Interlachen Golf Course, grounds crew, Edina, Minn. 05/2022 - 08/2022

- Achieved a 20 percent reduction in turf damage incidents through meticulous course maintenance and initiative-taking identification of potential hazards, improving overall course aesthetics and playability. Exhibited exceptional employee reliability with 100 percent attendance with work hours beginning at 5 am.
