Education

College of Our Lady of the Elms

Bachelor's, Computer Science

Chicopee, MA

Expected Graduation, May 2025

- **Related Coursework:** Advanced Python Programming, Cloud Computing, Machine Learning, Database Management, Discrete Mathematics, Data Structures and Algorithms

Work Experience

Farm Credit Financial Partners, Inc

Data Engineer Intern

Springfield, MA

June 2024 - August 2024

- Automated data integration via Azure Data Factory pipelines.
- Executed the process of copying data from production storage accounts to lower environments, enabling data engineers to use accurate production data for testing and validation purposes.
- Coordinated deployment releases to ensure seamless updates

Holyoke Public Schools

IT Help Desk Intern

Holyoke, MA

July 2023 - September 2023

- Provided technical support to end-users by troubleshooting hardware and software issues.
- Assisted help with the team to resolve help desk tickets promptly, ensuring timely resolution of technical issues.
- Assisted in the installation, configuration, and maintenance of desktops, laptops, and peripherals.

Projects

-
- **Java Virtual Pet Console Game** - Developed a console-based virtual pet game in Java, allowing users to interact with a virtual pet through a menu system. Utilized the Scanner class for user input, offering choices like feeding and playing.
 - **Stock Market Analysis Dashboard – R, Shiny, Alpha Vantage API**: Developed an interactive dashboard using **R Shiny** to analyze real-time intraday stock data, featuring modules for **price momentum prediction**, **volume pattern visualization**, and **volatility analysis around news events**
