Phone: (857) 225-1317 | Location: MA | Email: [mekalamonamudiraj@gmail.com](mailto:mekalamonamudiraj@gmail.com) | [LinkedIn](#)

## SUMMARY

- Highly skilled **Technical Programs and Machine Learning Engineer** with strong expertise in **cloud technologies, data migration, system integration, and project management**.
- Proven track record in leading **cross-functional teams** to deliver large-scale **technical solutions, including AWS cloud migrations, machine learning model development, and data security implementations**.
- Experienced as a Business Analyst, specializing in **Business Requirements Gathering, Business Process Flow, Business Process Modeling, and Business Analysis**.
- Proficient in **Python** and **SQL** for data analysis and automation, with expertise in **data visualization** tools like **Tableau** and **Power BI**.
- Strong background in managing databases including **MySQL, Oracle, PostgreSQL, and MongoDB**, ensuring data integrity and performance.
- Expertise in developing **BRD, FRD, BRD, and SRS** documents, conducting **cost-benefit, impact, and GAP analyses**, as well as performing advanced statistical analysis using **SAS**.
- Experienced in utilizing **Agile** and **Waterfall** methodologies to manage project lifecycles, ensuring timely delivery and stakeholder alignment.
- I am skilled in task automation with **Python**, enhancing operational efficiency and accuracy; experienced in **Pandas, PySpark, Plotly, Tableau, and Power BI** for data manipulation, visualization, and actionable insights.
- Adept in using project coordination tools like **Jira** and **Visio**, streamlining workflows, enhancing team collaboration, and ensuring efficient progress.
- Experienced in **healthcare**, with a strong understanding of **UAT processes, stakeholder collaboration, and compliance management**.
- Experienced in **healthcare**, with expertise in **UAT processes, stakeholder collaboration, and compliance management**.
- Focused on improving **data accuracy**, enhancing **decision-making**, and supporting **strategic planning** to drive organizational success.

## TECHNICAL SKILLS

|                                    |                                                                                                                                           |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Programming Languages:</b>      | Python, SQL, R, Java, C, C++, PHP, HTML, JavaScript, CSS                                                                                  |
| <b>Databases:</b>                  | MySQL, Oracle, PostgreSQL, MongoDB                                                                                                        |
| <b>Packages/ Libraries:</b>        | Pandas, PySpark, Plotly, NumPy                                                                                                            |
| <b>Business Skills:</b>            | Change Management, Decision-Making, Requirements Gathering, Documentation and Presentation, User Stories                                  |
| <b>Visualization Tools:</b>        | Tableau, Power BI, MS Excel                                                                                                               |
| <b>Documentation Techniques:</b>   | FRD, BRD, SRS, Use Case Diagram                                                                                                           |
| <b>Analysis Skills:</b>            | Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis, A/B Testing, Business Process modeling                |
| <b>Methodologies:</b>              | Agile, Waterfall                                                                                                                          |
| <b>Version Control Tools:</b>      | Git, GitHub                                                                                                                               |
| <b>Project Coordination Tools:</b> | Jira, Visio, Kanban                                                                                                                       |
| <b>Other:</b>                      | Microsoft Office, SAS, Salesforce, UAT, MS Access, AI/ML, Project Management, Problem-Solving, Collaboration, Public Speaking, Leadership |

## PROJECTS & RESEARCH

### Northeastern University

#### Project Manager, Travel Now Project

Boston, MA

Apr 2024 – Jun 2024

- Gathered and analyzed **market trends** and **customer needs** to ensure the project's alignment with business goals and client expectations.
- Defined **business requirements**, acting as the bridge between technical and business teams to maintain effective communication and prioritization.
- Managed project milestones using both **Agile** and **Waterfall** methodologies, ensuring that the project remained on track with a **100% on-time delivery** rate.
- Implemented **risk mitigation strategies**, ensuring that potential issues were identified early and addressed promptly.
- Impact:** Enhanced decision-making and stakeholder satisfaction through clear documentation, improved communication, and efficient project management. Reduced project delays by **15%**.

### Northeastern University

#### Business Analyst, RedEye Cab Service: Business Model Analysis

Boston, MA

Jan 2024 – Mar 2024

- Conducted **customer surveys, focus groups, and behavioral analysis** to improve the app's user experience, resulting in increased user retention **25%**.
- Worked closely with the **development team** to enhance features like **real-time tracking** and **SOS emergency buttons**, ensuring they met end-user.

- Streamlined processes by developing **documentation** for feature updates, **reducing development time** for new features by **20%**.
- **Impact:** Successfully launched a **user-friendly** and **reliable** service that received positive feedback from users, improving operational efficiency.

*Northeastern University*  
*Project Manager, PAVEGEN: Smart Kinetic Energy Flooring*

*Boston, MA*  
*Jan 2024 – Mar 2024*

- Conducted **customer surveys**, **focus groups**, and **behavioral analysis** to improve the app’s user experience, resulting in increased user retention **25%**.
- Managed the **design** and **prototyping** of innovative flooring technology that converts kinetic energy into electricity, contributing to sustainability.
- Collaborated with **engineering** and **research teams** to **refine prototypes** and **evaluate design feedback**, enhancing the product’s energy **20%**
- Ensured the timely completion of deliverables, maintaining project **scope** and **budget** through consistent tracking and stakeholder communication.
- **Impact:** Contributed to creating a **sustainable energy solution**, paving the way for future research and development in the renewable energy sector.

*Northeastern University*  
*Research Topic: The Impact of Agile Methodology on Project Success in IT Projects*

*Boston, MA*  
*Jan 2025 – Present*

- **Ongoing research** focusing on how **Agile methodology** affects project success rates, particularly in IT projects.
- Analyzing real-world case studies and data from various industries to identify **key success factors** and challenges faced by teams implementing Agile methodologies
- Aiming to provide insights into how Agile can be further optimized to increase **efficiency**, **collaboration**, and **quality of deliverables** in IT projects.
- **Impact:** Expected to contribute valuable findings that will enhance Agile practices, improving project outcomes and reducing failure rates in IT projects across different sectors.

EXPERIENCE

*Tata Consultancy Services (TCS),*  
*System Engineer | Cloud Data Migration & Security*

*India*  
*Apr 2022 – Aug 2023*

- Led **cloud data migration** projects, overseeing the seamless transfer of large-scale enterprise data with minimal downtime, optimizing migration time by **30%**.
- Collaborated with **senior stakeholders** to define **business requirements**, ensuring alignment with **security** and **performance** expectations.
- Developed detailed **project documentation**, including progress reports, risk assessments, and contingency plans, ensuring stakeholder transparency.
- Implemented **cloud security protocols** to safeguard sensitive data and ensure compliance with international data protection regulations.
- **Impact:** Increased **data migration efficiency**, reducing project timelines by **30%** and mitigating security risks through proactive management.

*Tata Consultancy Services (TCS),*  
*Assistant System Engineer | Vulnerability Management & System Updates*

*India*  
*Feb 2021 – Apr 2022*

- Conducted **vulnerability assessments** and managed **security updates** across multiple client systems, ensuring compliance with industry standards.
- Collaborated with **IT and security teams** to identify vulnerabilities and recommend mitigation strategies, improving system integrity by **20%**.
- Managed **documentation** for system updates and patches, ensuring all changes were tracked and communicated across teams for seamless integration.
- Implemented **cloud security protocols** to safeguard sensitive data and ensure compliance with international data protection regulations.
- **Impact:** Reduced **system vulnerabilities** by **40%** and improved overall security posture with minimal system downtime during updates.

*Tata Consultancy Services (TCS),*  
*Assistant System Engineer Trainee | Cloud Infrastructure & Data Migration*

*India*  
*Nov 2020 – Feb 2021*

- Supported **data migration** and **cloud infrastructure integration** projects, ensuring smooth transitions with consistent data integrity.
- Monitored system performance during migration, identifying and resolving potential issues to ensure uninterrupted service delivery.
- Documented **project progress** and **technical specifications**, enabling stakeholders to stay informed and aligned with evolving requirements.
- Implemented **cloud security protocols** to safeguard sensitive data and ensure compliance with international data protection regulations.
- **Impact:** Facilitated **smooth data transfers** while maintaining high system performance, ensuring successful migrations with minimal disruption to business operations.

EDUCATION

*Northeastern University, Boston*  
*Master of Science in Project Management at the College of Professional Studies*

*MA, USA*  
*Sep 2023 - Mar 2025*

*Jawaharlal Nehru Technology University Hyderabad*  
*Bachelor of Technology in Computer Science & Engineering*

*Hyderabad, India*  
*Jul 2016 - Sep 2020*
