

HARI PRASAD REDDY SHEELAM

| +1 (469) 971-8679 | hariprasadreddysheelam@my.unt.edu | <https://www.linkedin.com/in/hari-prasad-reddy-sheelam/> |

EDUCATION:

Master of Science, Computer Science Engineering | University of North Texas | Denton | 08/2022 to 05/2024

- **Coursework:** Machine Learning, Software Development for AI, Fundamentals of AI, Software Engineering, Operating System Design, Big Data, Information Retrieval, Fundamentals of Database, and Computer Algorithms.
-

TECHNICAL SKILLS:

- **Programming Languages:** Python, Java, JavaScript, C#, SQL, C, Scala, C++, Kotlin, Ruby.
 - **Web Technologies:** HTML, CSS, React, Node.JS, TypeScript, XML, Redux, JSON, SOAP.
 - **Libraries:** Pandas, Matplotlib, Seaborn, SciPy, StatsModels, Log4j, Web3.js, GoLang.
 - **Databases:** Relational Databases (SQL Server, MySQL, PostgreSQL), NoSQL DB (MongoDB, DynamoDB, Aerospike).
 - **Tools and Frameworks:** .NET, MySQL Workbench, Visual Studio Code, Spring Boot, Jenkins, Nexus IQ, Nexus, Angular JS, Dockers, Kubernetes, Jupyter Notebook, Ruby on Rails, MVC, Selenium, Terraform, Vue.js, GitHub, JIRA, J2EE.
 - **Cloud Services:** Amazon Web Services, Azure (Azure SQL Database), Google Cloud Platform (Google Big Query).
-

PROFESSIONAL EXPERIENCE:

Teaching Assistant | Machine Learning | UNT | 08/2023 to 05/2024

- Mentored 60 students to craft anomaly detection models, elevating accuracy by 30% through machine learning algorithms, and learned extensively about Natural Language Processing and Deep Learning.

Full-Stack Developer | Audree Infotech Pvt. Ltd. | 06/2021 to 07/2022

- Architected and engineered .NET Framework backend applications, leveraging C# as the dominant language.
 - Developed Microservices RESTful API service endpoints with Spring Boot and deployed application logging with Log4J.
 - Automated CI/CD using DevOps tools like Jenkins, Nexus IQ, and Nexus, cutting time-to-market in half, and increasing deployment frequency by 50%, with a 95% success rate in builds and deployments.
 - Generated responsive and adaptive web pages employing HTML, CSS, and JavaScript to enhance user experience.
 - Collaborated with a team to implement agile solutions, reducing issue resolution time by 30%, achieving a 96.9% uptime rate, and enhancing scalability by 40%, while upholding high code quality and design standards.
-

ACADEMIC PROJECTS:

Loan Approval Prediction | UNT | 01/2023 to 05/2023

- Utilized Python and employed robust data manipulation modules like Pandas for data preparation and cleaning.
- Applied Matplotlib and Seaborn with 95% competency for rigorous data analysis, revealing notable trends and insights.
- Procured a dataset from Kaggle and rigorously conducted statistical tests ensuring a 98% confidence level in assessing and validating findings.

Ride-Sharing Wars | UNT | 01/2023 to 05/2023

- Harnessed Pandas for data preprocessing, achieving a 30% reduction in preparation time, and employed Matplotlib and Seaborn for data visualization, revealing significant insights.
- Acquired the dataset from Kaggle and conducted statistical tests to ensure rigorous examination and validation of findings.

Eagle Business Platform | UNT | 09/2022 to 12/2022

- Engineered the "Eagle Business Platform" using SQL and JavaScript with robust backend and front-end technologies.
- Administered databases with 90% expertise in MySQL Workbench and assignments in Microsoft Visual Studio.
- Employed Node.js to drive backend functionality, resulting in a 30% boost in server-side performance, and implemented responsive design elements on the front end with React, resulting in a 25% increase in user engagement.

GitHub: <https://github.com/hariprasad2899>

WORKSHOPS | INTERNET OF THINGS | IIT |

03/2019 to 04/2019

Participated in an IoT conference, achieving 90% mastery in automation proficiency, and designed a home automation system.

LEADERSHIP EXPERIENCE | HACKATHON | VNRVJET |

02/2020 to 03/2020

Directed a team of 12; designing teaching material; conducting hands-on sessions in C; covering - on-chip ADC/DAC, interrupt service Routine for Ultrasonic sensor, Real-time clock, I2C with 16x2 char LCD, on-chip Bluetooth C Wi-Fi, IFTTT.

CERTIFICATIONS: IBM Full Stack Software Developer Professional, AWS Solution Architect – Associate.

05/2024
