

GABRIELLE MCCRAE
Royal Palm Beach, FL | gabby6329@gmail.com | (561) 403-8636

Entry level software developer with a strong foundation in iOS development, cryptography, and full-stack projects. Experienced in Swift, Python, SQL, and JavaScript, with hands-on academic and personal projects showcased on GitHub.

EDUCATION

Florida Atlantic University

Bachelor of Arts in Computer Science (AI/Cybersecurity Minor)

GPA: 3.7/4.0 Magna Cum Laude

Boca Raton, FL

Graduated 2025

PROJECTS

Portfolio Website: <https://github.com/GEM265/portfolio-site>

- Designed and developed a responsive personal portfolio website using *HTML, CSS, and JavaScript* to showcase projects, resume, blog content, and certifications
- Implemented a *custom pixel-art/terminal-inspired UI* to create a unique user experience and demonstrate frontend design skills
- Deployed the site with integrated GitHub links to highlight active development and version control usage

ElGamal: <https://github.com/GEM265/Elgamal>

- Implemented the *ElGamal public-key cryptography algorithm* to support secure encryption and digital signature generation
- Developed key generation, encryption, decryption, and signature verification logic using *modular arithmetic and number theory concepts*
- Gained hands-on experience with *cryptographic secure principles* and algorithm correctness

DES implementation: <https://github.com/GEM265/DES-implementation>

- Implemented the *Data Encryption Standard (DES)* symmetric encryption algorithm from scratch
- Developed key scheduling, block processing, and encryption rounds to transform plaintext to ciphertext
- Strengthened understanding of *low-level encryption mechanisms, bit manipulation, and security trade offs*

IntroduceStudent: <https://github.com/GEM265/IntroduceStudent>

- Developed an *iOS application using Swift and Xcode* that collects and displays user input through an interactive questionnaire
- Implemented UI components to gather information such as name, university, pet preferences, and pet count
- Focused on *user experience, input validation, and dynamic UI updates* for Apple devices

EchoPlay: <https://github.com/GEM265/EchoPlay>

- Designs and developed *Echoplay, an iOS social music discover app* inspired by Spotify and TikTok

- Implemented features enabling users to *discover songs through short, swipeable clips*, save tracks to playlists, and explore trending music
- Designed support for *collaborative playlists, music challenges, and trending charts* emphasizing scalable app architecture and user engagement
- Utilized *Swift, Xcode, and API-based integration concepts* to simulate real-world mobile app functionality

TECHNICAL SKILLS

Languages: SQL, C/C++, Java, Python, HTML, CSS, Java Script, Swift, Powershell

Frameworks: ReactJS, Flutter

Software: Git/Github, MS SQL Server, MongoDB, MS Office, Adobe Photoshop, Canva, VS Code, Visual Studio, VMware Horizon/Altera Quartus, Xcode

EXPERIENCE

Florida Atlantic University

Boca Raton, FL

File Room Assistant

January 2025 - Present

- Operate scanners to convert paper records into digital format
- Organize and maintain digital files according to established procedures
- Assist with basic clerical tasks as needed, such as filing and data entry

CERTIFICATES

Codepath Intermediate iOS Development, Codepath Intermediate Cybersecurity, Microsoft word, Microsoft Powerpoint, Microsoft Excel

ACTIVITIES

Women in Engineering and Computer Science (WEICS), *Member*

September 2023-Present
