

NAVYA SRI GADALEY

Dallas, TX ■ gadaleynavya08@gmail.com ■ 251-381-9618 ■ [LinkedIn](#) ■ [GitHub](#)

Graduate Student and Data Analyst skilled in SQL, Power BI, and Snowflake, with experience in program management, data manipulation, and quantitative data analysis. Proficient in data cleaning, documenting methods, and delivering actionable insights to support business and customer needs.

EDUCATION:

- | | |
|---|---------------------|
| • Auburn university at Montgomery , Montgomery, AL | Jan 2024 - May 2025 |
| Master of Science – Information Systems | GPA – 3.8/4.00 |
| • CVR College of Engineering , Hyderabad, India | Aug 2018 - May 2022 |
| Bachelor of Technology – Information Technology | GPA – 3.8/4.00 |

TECHNICAL SKILLS:

- **Programming & Scripting:** Python, SQL, C#, Java, .NET, Kotlin, HTML, C
- **Analytics & Visualization:** Power BI, Google Data Studio, Pandas, NumPy, Matplotlib, Marketing Analytics, Interactive Dashboards, Pivot Tables, Data Tables, Formulas, Charts
- **Data Analytics & Quantitative Methods:** Data Manipulation, Data Cleaning, Quantitative Data Analysis, Statistical Methods, Documenting Analytical Results, Excel Functions, Power Query
- **Project & Program Management:** Program Management, Agile Methods, Sprint Planning, Customer-Focused Delivery, Workstream Coordination
- **Data Engineering & ETL:** Azure Data Factory, Azure Databricks, SQL Server Integration, CI/CD Pipelines, Data Warehousing, Data Management, Snowflake, Data Transformation, Big Data, Hadoop
- **Databases:** SQL Server, MySQL, Oracle, MSSQL, Stored Procedures, Views, Functions, Database Design
- **Tools & Platforms:** Visual Studio, Jupyter, PyCharm, Git, GitHub, GitLab, Azure DevOps, Smartsheet, Application Insights
- **Cloud Platforms:** Microsoft Azure (Databricks, Application Insights), AWS
- **Development Practices:** OOP, Agile (Scrum/Kanban), Waterfall, Design Patterns, GitHub Co-Pilot, Redis (basic)
- **Office & Productivity:** MS Excel, Word, PowerPoint, SharePoint, Microsoft Office Suite
- **Soft Skills:** Communication, Team Collaboration, Problem Solving, Time Management, Analytical Reasoning, Research, Written Communication, Verbal Communication, Attention to Detail, Problem Solving, Team Collaboration, Building and Maintaining Cross-Functional Relationships, Adapting Quickly in Dynamic Work Environments

PROFESSIONAL EXPERIENCE:

- | | |
|--|-------------------------------|
| Data Analyst Accenture, Hyderabad, India | (Aug 2022 - Jul 2023) |
| <ul style="list-style-type: none">• Led a 5-member Agile team to deliver full-cycle cloud-based data solutions, including ETL pipelines and dashboard automation.• Built and optimized scalable workflows using Azure Data Factory, Azure Data Lake, Databricks, and Synapse Analytics.• Designed relational databases and implemented advanced SQL (views, functions, stored procedures) to enhance performance.• Developed interactive Power BI dashboards with real-time monitoring, improving reporting speed and data accuracy by 20%.• Conducted customer behavior analysis and dashboard delivery using large-scale data cleaning, trend analysis, and stakeholder reporting. | |
| Data Analyst Medcords, Hyderabad, India | (Jan 2022 - July 2022) |
| <ul style="list-style-type: none">• Analyzed user behavior data within mobile healthcare applications to uncover usage trends, improve performance, and enhance overall user experience.• Collaborated with development teams to apply data-driven insights for optimizing app responsiveness and resolving usability issues in a real-world mobile application environments and user experience. | |

PROJECTS:

COVID-19 Analytics Dashboard: [GitHub](#) | Power BI | Azure Data Factory | Azure SQL

Built an end-to-end data pipeline using Azure Data Factory to ingest COVID-19 case data into Azure SQL Database. Designed interactive Power BI dashboards to visualize key metrics such as cases, recoveries, and deaths. Enabled automated data refresh and monitoring for real-time insights.

- | | |
|--|-------------------|
| Tata Group Data Analytics Job Simulation on Forage | (May 2025) |
| <ul style="list-style-type: none">• Completed an AI-powered data analytics simulation for Tata iQ, focusing on customer delinquency prediction and strategic modeling using GenAI.• Designed a no-code predictive framework and AI-driven collections strategy aligned with ethical, regulatory, and scalable principles. | |
