PROFESSIONAL SUMMARY

Senior Java Full Stack Developer with 6 years of experience building scalable backend and full-stack applications using Java 8/11/17, Spring Boot, and microservices-based architectures. Strong hands-on experience with AWS, Docker, Kubernetes, and cloud-native deployments, along with proficiency in developing RESTful APIs, CI/CD automation, and Agile/Scrum environments. Experienced in improving application performance, reliability, and scalability in large-scale enterprise systems. Known for contributing effectively across the full development lifecycle, from design and development to deployment.

TECHNICAL SKILLS

Languages : Java (8/11/17), Python, SQL, JavaScript, TypeScript
Frameworks : Spring Boot, Spring Cloud, Hibernate, React.js, Angular
Cloud/DevOps : AWS (EC2, S3, Lambda, EKS), Azure (basic exposure), Docker, Kubernetes, Jenkins
Practices : REST APIs, Microservices, Agile/Scrum, SDLC
Tools : Maven, Git, JUnit, Postman, MongoDB, PostgreSQL, IntelliJ IDEA

WORK EXPERIENCE

Client: AT&T

Plano, TX

Role: Java Full Stack Developer

Sep 2023 – Present

- Contributed to modernizing legacy backend services into Java 17 & Spring Boot microservices, improving system response times by approximately 35%.
- Enhanced RESTful APIs and backend components to support high-concurrency use cases.
- Improved frontend performance using React and Angular, reducing initial page load times.
- Participated in CI/CD automation using Jenkins, improving release stability.
- Monitored and resolved production issues by analyzing application logs, metrics, and alerts.
- Collaborated with cross-functional teams in an Agile/Scrum setup, including code reviews and sprint planning.
- Supported cloud deployments and environment management on AWS (EC2, S3, EKS).

Client: Truist Financial

Kansas City, MO

Role: Java Developer

Aug 2022 – May 2023

- Modernized financial applications using Java 11 and Spring Boot, leveraging Streams and Lambda expressions.
- Developed secure RESTful microservices using Spring Boot and Spring Security.
- Built responsive SPA interfaces using React.js and TypeScript with performance optimizations.
- Integrated backend services using Hibernate/JPA with optimized SQL queries.
- Implemented input validation, error handling, and logging to improve backend reliability and compliance.
- Followed secure coding standards and best practices for enterprise financial applications.

Client: Cognizant Technologies

Pune, India

Role: Software Developer

Aug 2019 – Dec 2021

- Developed backend services using Java and Spring Boot in an Agile SDLC environment.
- Supported AWS-based deployments (EC2, S3, Lambda) and containerized components using Docker.
- Built Python automation scripts and optimized SQL queries, improving operational efficiency.
- Assisted in application deployment, configuration, and environment support activities.
- Collaborated with QA and development teams to fix defects and support testing cycles.

EDUCATION

University Of Missouri Kansas City – School of Computer Science

Missouri, MO

Master of Computer Science | GPA: 3.57

Jan 2022 – May 2023

Lovely Professional University

Punjab, India

Bachelor of Technology in Computer Science and Engineering | GPA: 7.3/10

Aug 2016 - Mar 2020

CERTIFICATIONS

- **Oracle Certified Professional:** [Java SE 11 Developer](#)
