

GEETHIKA KARANAM

(919) 396-0066 | gkarana2@ncsu.edu | [LinkedIn](#) | [Portfolio](#) | [Blog](#) | Raleigh, NC

EDUCATION

North Carolina State University
Master of Science in Engineering Management (Analytics track)
Mahindra University, Ecole Centrale College of Engineering
Bachelor of Technology in Electrical Engineering

Raleigh, NC
May 2025
Hyderabad, India
June 2023

SKILLS

Languages: Python, R, SQL | **Statistical Concepts:** Regression Analysis, Hypothesis Testing, ANOVA, Experimental Design, Feature Engineering
Visualization tools: Excel (PivotTables, VBA), Tableau, Power BI
Data Platforms: PostgreSQL, MySQL, Snowflake, dbt, AWS (S3, Redshift)
Certifications/ Other Skills: PMI - Certified Associate in Project Management, Version Control (Git/Github), Data Mining, Data Wrangling & ETL, Data Storytelling & Dashboarding

PROFESSIONAL EXPERIENCE

Trinity Health **Raleigh, NC (Remote)**
Data Analyst Intern **January 2025 – May 2025**

- Enhanced costing accuracy by 12% and improved forecasting for high-volume surgical implants by analyzing 10M+ billing and supply chain records using **Python (Numpy/ Pandas) and SQL**
- Engineered real-time Power BI dashboards for 5+ stakeholder groups, enabling executives to track KPIs on part utilization, billing accuracy, and cost trends
- Automated ETL pipelines for claims and receivables data, boosting reporting accuracy while ensuring HIPAA compliance
- Secured approval for enterprise-wide data standardization initiatives, delivered strategic insights to the C-suite, and generating ~\$220K in annual savings

Data Science and AI Academy at North Carolina State University **Raleigh, NC**
Student Program Assistant **January 2025 – May 2025**

- Supported the academy in organizing workshops, conferences, and datathons (Women in Data Science @ Raleigh and the ASA Datafest 2025) to foster an interdisciplinary data science community at NC State University
- Created **Tableau and Excel reports** to analyze event engagement and outreach strategy.

Schneider Electric **Hyderabad, India**
Data Analyst Intern **July 2022 - May 2023**

- Designed real-time IoT sensor data pipelines in **Python and PostgreSQL**, ingesting temperature, humidity, and pressure readings, which improved the accuracy of environmental diagnostics by 15%
- Built ETL workflows to ingest Zigbee IoT sensor data from **AWS S3**, and real-time executive alerts that accelerated operational decision-making
- Developed and maintained **Power BI** dashboards, providing stakeholders with insights for predictive maintenance and reducing unplanned downtime

PROJECTS & COMPETITIONS

Women in Data Science Datathon - 2025

- Built a predictive Support Vector Classifier to determine participant sex from fMRI data, using ANOVA for feature selection and PCA for dimensionality reduction, retaining 90% variance across 10,000+ features
- Achieved 83% accuracy and 80% macro F1 score, generating actionable neuroimaging insights submitted to the Women in Data Science Datathon 2025

Centennial Campus (NC State University) Placemaking Metrics

- Develop quantitative metrics to evaluate campus development effectiveness, collaborating with diverse stakeholders to ensure data frameworks address community and economic needs
- Conduct ad hoc analyses to support data-driven campus planning decisions, translating complex data into actionable development recommendations

LEADERSHIP/VOLUNTEERING

- Humanitarians AI:** Leading research on accessible AI frameworks for nonprofits and small businesses, creating open-source agentic AI solutions that democratize advanced analytics capabilities ([Github](#))
- WiDS (Women in Data Science) Ambassador at North Carolina State University (Team Lead, WiDS Datathon 2025):** Led a student team in developing ML models that detect ADHD in females by identifying distinctive brain activity patterns
- DataKind Volunteer:** Contributed to the development of the Data Observation Toolkit (DOT), an open-source solution for improving data quality in digital health systems across Africa, now recognized as a digital public good
