

GEMMA POWELL

Entry-Level IT Data Analyst

(719) 367-9179 * gjcp329@gmail.com * [linkedin.com/in/gemma-p-252b22215/](https://www.linkedin.com/in/gemma-p-252b22215/)

PROFESSIONAL SUMMARY

Detail-oriented professional with 4+ years of experience in quality assurance, software validation, and data analysis for SaaS platforms. Skilled in SQL, Excel, Power BI, and Tableau for data validation, reporting, and dashboard creation. Adept at identifying trends, documenting findings, and collaborating with cross-functional teams to ensure data quality and actionable insights. Currently completing a Business Intelligence Analytics program with hands-on projects in data cleaning, visualization, and statistical analysis, transitioning into a full-time data analytics role.

KEY ACHIEVEMENTS

Delivered mission-critical projects under aggressive timelines:

- Supplier Compliance AI Templates in 13 days (now one of the company's top revenue drivers).
- Gather™ Subscriptions (Chargebee™) in 20 days, enabling global subscription billing and expanding global revenue streams.

TECHNICAL SKILLS

- Data Analysis & Visualization: SQL, Excel (Pivot Tables, VLOOKUP, Charts), Power BI, Tableau
- Programming & Automation: PowerShell, VBA (basic), Selenium
- Reporting & Documentation: Dashboard Design, KPI Reporting, Process Documentation, Client Presentations
- Collaboration Tools: Azure DevOps/Test Plans, Asana, SharePoint, Jira, Figma
- Methodologies: Agile, Scrum, DevOps, SDLC, Waterfall

WORK EXPERIENCE

QA Specialist | TraceGains – 10/2021 - 09/2025

- Developed and executed **comprehensive test plans and test cases** for SaaS platforms, validating compliance and workflow accuracy.
- Translated business requirements and process documentation into **detailed testing scenarios**, ensuring coverage across – Supplier Management; Supplier Compliance; Audit Management; CAPA Management; Enterprise Workflows, Settings and Configuration; Gather™ Customer Management; Quality Management; NutriCalc.
- Independently delivered high-impact projects under strict deadlines, including **Supplier Compliance AI Templates (13 days)** and **Gather™ Subscriptions using Chargebee™ (20 days)**, both major revenue drivers.

- Executed functional, regression, and end-to-end testing across multiple systems, ensuring alignment with **enterprise workflows** like MES environments.
- Conducted **API validation** with Postman (REST/SOAP), ensuring reliable integrations.
- Documented and reported defects clearly in Azure DevOps; collaborated with cross-functional teams to resolve issues.
- Collaborated with business and technical teams to ensure **requirements traceability and test completeness**, actively contributing to test strategy and planning.
- Tools: Azure DevOps/Test Plans, Selenium WebDriver, Postman, SQL, Asana, SharePoint.

Support Engineer | *Tek Experts, 04/2020 - 10/2021*

- Delivered **technical troubleshooting** and support for Microsoft products in a fast-paced environment.
- Collaborated across teams to resolve escalated issues using **Azure, Active Directory, PowerShell, and network analysis tools** (Wireshark, Fiddler).
- Improved customer satisfaction by quickly diagnosing and resolving performance and integration issues.

Software Test Engineer (Contract) | *Volt Workforce Solutions (HP Project), 09/2012 - 03/2013*

- Tested Hewlett-Packard's **mobile storage management software**, logging and tracking defects with HP ALM Quality Center.
- Conducted **API and platform testing** in Agile/Scrum environments.
- Tools: HP ALM, Java, C++, Eclipse, SQL Lite.

Quality Assurance Tester (Contract) | *Cook Systems (Fedex Project), 09/2011 - 05/2012*

- Managed test cases and defect logging for **FedEx Services' GRASP-Retirement/Scan Upload system**.
- Performed integration and regression testing in collaboration with development teams.
- Tools: HP ALM, Web Services/XML, Oracle SQL.

EDUCATION & CERTIFICATION

- Bachelor of Computer Data Processing Management
- Business Intelligence Analytics Program (In Progress) - SQL, BI Reporting, Tableau, Data Modeling
