TEST AUTOMATION ENGINEER

2+ years of experience in Information Systems and Technology Management. Advanced knowledge of Selenium WebDriver, hands-on experience with building web automation using Page Objects pattern, Python, and BDD. Adept at IT Security, Computer Networking, Software Engineering, Relational Database, Data Visualization, and AWS Cloud. Proven track record as a Computer Hardware Tester and AWS Datacenter Technician. Known for collaborating with cross-functional teams to address issues, drive improvements, and deliver high-quality software solutions. US Citizen.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, R, Bootstrap, HTML, CSS, PHP
- **Database Technologies:** Microsoft Access, Microsoft SharePoint, Oracle, Databricks, SQL, MAMP
- **Test Automation:** Selenium Behave (Cucumber), Gherkin, POM, Allure, Chrome DevTools, BrowserStack, Appium, Jira, TestRail
- **Tools:** Tableau, AWS Cloud, Microsoft Windows, macOS, Linux
- **Certifications:** Network+, Security+, CySA+, AWS Cloud Practitioner
- **Methodologies:** Agile, SCRUM, Kanban

WORK EXPERIENCE

REELLY.IO | REMOTE

Test Automation Engineer Intern | May 2024 – Present

- Automated the testing of a web application using Selenium WebDriver, Behave BDD and Python to increase test coverage by 20%
- Expanded test coverage to include two additional browsers on BrowserStack, achieving a 95% pass rate on diverse operating systems
- Utilized the Page Object pattern to abstract web page elements, resulting in a 25% improvement in test maintainability and a 20% reduction in code duplication
- Utilized Git and GitHub for a version control of the codebase, ensuring seamless collaboration and efficient code management
- Executed 20+ detailed test scenarios encompassing over 150 individual test steps to ensure application functionality
- Took part in weekly Scrum meetings informing about the findings, bug fixes

E-ASSET SOLUTIONS LLC | FALLS CHURCH, VA

Info Security and Data Destruction Technician | February 2023 – Present

- Conduct comprehensive functional testing of laptops, desktops, thin clients, servers, switches, firewalls, various other forms, and improving product quality by 15%
- Manage product recycling and destruction processes, ensuring 100% compliance with data security protocols
- List and manage functional products on eBay, increasing sales revenue by 20% through effective product descriptions and pricing strategies
- Implement a new inventory tracking system, reducing processing time by 30% and improving accuracy by 25%
- Evaluating and eliminating any personal identifiable information, proprietary information, or data contents of various hardware devices in compliance with NIST 800-88 standards
- Conduct repairs, flashing, degaussing, shredding, or block wiping for sensitive SSDs, HDDs, and other data containing devices

CAREERIST INC | REMOTE

QA Automation Trainee | February 2024 – May 2024

- Applied Python programming skills to set up QA automation environments using Selenium and Behave
- Practiced behavior-driven development (BDD) principles in test automation projects using Behave BDD
- Applied Appium for basic mobile testing, particularly in Android application testing

AMAZON DATACENTER | MANASSAS, VA

AWS Datacenter Technician | August 2022 – December 2022

- Troubleshoot hardware and networking issues on servers and switches, maintaining 99.9% uptime for critical systems
- Performed routine maintenance and upgrades on data center equipment, reducing unplanned downtime by 25%
- Collaborated with cross-functional teams to resolve complex technical issues, improving mean time to resolution
- Implemented and maintained documentation for standard operating procedures, enhancing team efficiency by 20%

SIMSPACE CORPORATION | REMOTE

QA Engineer Intern | March 2022 – June 2022

- Tested content for quality, identifying and documenting an average of 15 errors per week before product release
- Interacted with the team to discuss tests and findings during daily SCRUM meetings
- Developed and executed test plans for new features, increasing test coverage by 30%
- Assisted in the creation of automated test scripts, reducing regression testing time by 40%

GEEK SQUAD AGENT | FALLS CHURCH, VA

Repair Agent | November 2021 – August 2022

- Diagnosed and repaired technical issues with computers and electronic devices, maintaining a 95% customer satisfaction rate
- Provided technical support and guidance to customers, resolving an average of 20 issues per day
- Conducted hardware and software upgrades, improving device performance for 80% of customers
- Maintained accurate repair logs and inventory records, reducing parts ordering errors by 15%

EDUCATION

MASTER OF SCIENCE: INFORMATION SYSTEMS & TECHNOLOGY MANAGEMENT

THE GEORGE WASHINGTON UNIVERSITY, WASHINGTON, DC

Certificate: Graduate Certificate in Artificial Intelligence

Relevant Coursework: AWS Cloud Foundations, Cloud Application, Information Systems Development and Applications, Information Technology Project Management, Web Application Development, Web and Social Analytics, Information Systems Security, Database Principles and Applications.

BACHELOR OF PROFESSIONAL STUDIES: INTEGRATED INFORMATION SCIENCE & TECHNOLOGY

THE GEORGE WASHINGTON UNIVERSITY, WASHINGTON, DC

Relevant Coursework: Python I & II, Information and Network Security, Computer and Telecommunication Networks, Health Information Technology, Relational Databases and Their Design, Data Visualization, Entrepreneurship and Technology Venture Creation.

ASSOCIATE OF SCIENCE: INFORMATION TECHNOLOGY

NORTHERN VIRGINIA COMMUNITY COLLEGE, ALEXANDRIA, VA

Coursework: Software Design, Multimedia Software, Intro to Telecommunications, JAVA Programming, Advanced Database Management.

Workforce Development: Cisco Certified Entry Level Networking Technician (CCENT)
