PROFESSIONAL EXPERIENCE

Office of Information Technology, UT Dallas

January 2025 - Present

Student Analyst

- Provide front-line IT support at UTD's Technology Bar, resolving issues with Oracle PeopleSoft SIS, FMS, Duo 2FA issues, NetID, Microsoft 365, and other UTD enterprise systems via in-person and ticket-based service.
- Supported database access, monitored major IT incidents, and collaborated with backend teams to escalate and resolve system-wide issues, ensuring ERP data integrity and adherence to security protocols.

Accenture

November 2022 - August 2024

SAP FICO Consultant

- Led the configuration and deployment of SAP FI and CO modules, collaborating with client end-users to gather requirements and customize SAP FICO solutions to align with unique business objectives.
- Efficiently managed and resolved P1 and P2 priority tickets, solving 40% of the team's ticket volume and ensuring timely resolution of critical issues, which helped prevent fines worth thousands of pounds.
- Collaborated with development and project teams to resolve global-impact issues, working cross-functionally with other SAP modules like MM and SD to ensure seamless integration and system functionality.
- Configured and supported key FICO components, including General Ledger Accounting, Cost Centers, Asset Accounting, Profitability Analysis (CO-PA), and Period-End Closing while managing workflows, bank master data and electronic bank statements to ensure seamless financial processes and accurate reporting.
- Trained two team members on SAP FICO processes, delivering KTs and ensuring smooth onboarding for the project.

Simplify Solutions

April 2021 - June 2021

Business Development Specialist

- Built websites and executed SEO/digital marketing strategies; leveraged Google Analytics and Power BI to monitor traffic, analyze user behavior, visualize trends, and optimize content performance to improve client engagement.
- Acquired 4 key clients, boosting revenue by 25% and managing end-to-end client communication, meetings, and technical issue resolution using Salesforce CRM and ServiceNow for streamlined client support workflows.

PROJECTS

Accrual Engine Implementation

- Spearheaded the configuration of SAP's Accrual Engine to automate insurance premium accruals for Total Energies, a diamond client of Accenture, ensuring improved financial reporting efficiency.
- Configured accrual objects, posting rules, and methods to ensure timely financial postings in the General Ledger.

Dunning Process Optimization

- Implemented SAP's dunning process for Total Energies by defining dunning procedures and setting dunning levels.
- Configured late fees and interest charges by overdue period to improve receivables management efficiency.

LEADERSHIP EXPERIENCE & ORGANIZATIONS

Officer, SAP Users Group, UT Dallas

September 2024 - Present

Tech Lead, Bulls & Bears Finance Club, Christ University

June 2021 - May 2022
