Objective:

Results-oriented and dedicated Technical Support Executive with 7 months of experience in AI based product deployment, debugging, and troubleshooting. Proficient in Python, MySQL, Power BI and basic AWS, seeking a challenging position to leverage my skills in software development and enhancing application performance.

Professional Experience:

Technical Support Executive

Tango Eye - Chennai | October 2023 – May 2024

- Provided technical support for an AI-based retail analytics product, ensuring smooth deployment, resolving tickets, and troubleshooting issues.
- Managed product deployment, monitoring, resolving configuration issues, and coordinating with development teams to debug and fix software problems.
- Diagnosed and resolved issues in a timely manner, reducing downtime and enhancing operational efficiency by applying risk management principles.
- Handled technical support tickets, prioritizing and addressing concerns to satisfy business stakeholders.

Key Achievements:

- Collaborated with development teams to identify and fix critical bugs, leading to a reduction in application downtime.
 - Established comprehensive data validation protocols during database transactions, significantly reducing application crashes due to data loss and ensuring application reliability, resulting in performance improvements of over 60% through a data driven approach.
-

Technical Skills:

- **Programming Languages:** Python, Java (Basic)
 - **Cloud Services:** AWS (Basic)
 - **Database Management:** MySQL, ETL processes
 - **Data visualization:** Power BI
 - **Version Control:** Git and Github
-

Education:

- **Bachelor of Technology - Mechanical**
SRM institute of science and technology
Graduated: May 2022

Certifications:

- The Complete Python Developer - Udemy
 - Introduction To Cloud Computing On AWS - Udemy
-

Projects:

Browser Load Time Tester

- Developed a Python script to automate webpage load time measurement across Chrome and Edge using Selenium, utilizing monitoring techniques.

Hotel Booking Management System

- Developed a Python-based Hotel Booking Management System with MySQL as Database to streamline hotel operations.

Metal Price Checker

- Created a Python script integrating the “Metals.dev” API to display real-time metal prices. Implemented optional historical analysis (Day/Week) with price change calculation for insights.
-

Soft Skills:

- Problem-solving and analytical skills
 - Strong communication and collaboration
 - Attention to detail and troubleshooting expertise
 - Time management and task prioritization
-

Languages:

- English: Fluent
 - Tamil: Fluent
 - Telugu: Fluent
