

Goutham Gudipudi

+1 (928) -225-9719 | LinkedIn | gudipudigoutham9@gmail.com | Flagstaff, AZ

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience in full-stack development using Java, Spring Boot, React.js, and SQL. Skilled in building scalable web applications, optimizing database performance, and implementing RESTful APIs. Hands-on experience with CI/CD pipelines, Docker, Kubernetes, and cloud platforms like AWS, Azure, and GCP. Strong understanding of Agile methodologies and DevOps practices. Proven ability to improve application performance, reduce deployment time, and enhance user experience.

WORK EXPERIENCE

Software Engineer | Promates, Haymarket, VA

Apr 2025 – Present

- Optimized **relational database performance** by refactoring inefficient SQL queries and enforcing **data governance** standards, enhancing system responsiveness, and ensuring **compliance with data security protocols**.
- Contributed to the development of high-performance, distributed **Java/J2EE applications** leveraging **Spring Boot** and Spring Cloud microservices, resulting in a 25% increase in throughput and 30% improvement in scalability and development efficiency.
- Supported maintainable design practices, which helped reduce **technical debt** and improve overall system performance.
- Developed dynamic **web application features** using **React.js**, HTML5, and CSS3, which helped raise user engagement by 15% through enhanced UI/UX.
- Helped design and implement real-time, event-driven architectures using **Kafka**, which reduced event processing time by 20%.
- Gained hands-on experience with **CI/CD pipelines** in Jenkins, reducing deployment time by 35% and improving reliability.
- Supported infrastructure automation and configuration management, helping reduce manual intervention by 50%.
- Assisted in deploying and managing containerized applications with **Docker** and **Kubernetes**, improving scalability, and reducing deployment inconsistencies.

Graduate Teaching Assistant | Northern Arizona University, Flagstaff, AZ

Sep 2024 - Dec 2024

- Provide personalized academic support to **160 students** in **Web Development**, adapting guidance to each student's needs in **front-end technologies**.
- Conducted hands-on sessions to build student's skills in **HTML**, **CSS**, and **Java Script**, enhancing their proficiency in web page design and development.
- Managed **grading and feedback** for coursework, addressing student inquiries and clarifying complex concepts to support a positive learning experience.
- Collaborated with students to build foundational programming skills, fostering critical problem-solving abilities for both academic and practical applications.

EDUCATION

Masters in Computer Science | Northern Arizona University, Flagstaff, AZ, USA

Aug 2023 - Dec 2024

Bachelors in Electronics and Engineering | Vignan University, Vadlamudi, India

Jun 2019 – May 2023

TECHNICAL SKILLS

Programming Language: Python, C, HTML, CSS, Java Script, SQL

Front-end Tech: React.js, Angular, HTML5, CSS3, Bootstrap, D3.js, jQuery, Redux

Back-end Tech: Spring Boot, Spring Cloud, Spring MVC, Spring Data JPA, JSP, Express.js, Node.js, RESTful API, Hibernate, Swagger

Databases: PostgreSQL, MySQL, MongoDB, Oracle, DynamoDB, SQL Server

Cloud Services: AWS (S3, DynamoDB, EC2, Lambda, CloudWatch, ECS), Azure, GCP

Miscellaneous: Kafka, Docker, Kubernetes, JUnit, Mockito, Postman, Log4j, Git, GitHub Visual Studio Code, JIRA, Jupyter Notebook, Android Studio, Spark, Hadoop, Agile/Scrum, CI/CD, UML, SDLC, Design Patterns, Program Development Documentation

CERTIFICATIONS

Certified Python Developer | Python Institute

Deep Learning Certified | NPTEL

Certified in AWS Cloud Services | Amazon Web Services
