SUMMARY

Data & Business Intelligence Analyst with 4+ years of experience delivering AI-driven data solutions across Financial Services and Supply Chain domains. Skilled in ETL, SQL development, data warehousing, reporting, and analytics with expertise in Power BI, data integration, and dimensional modeling. Proven track record of supporting financial reporting (GL coding, pay run automation), warehouse/order management analytics, and data quality initiatives.

EDUCATION

Master of Science in Computer Science

Texas A&M University - Kingsville

May 2021

GPA 3.83/4.0

Bachelor of Engineering in Computer Science Engineering

May 2017

SRM University, Chennai, India

EXPERIENCE

Business Intelligence Analyst- SBS Corp, Dallas, Texas

February 2025- Current

- Partner with technical teams and business stakeholders to design and implement AI & Data Analytics solutions across BI platforms.
- Develop and optimize SQL queries, ETL workflows, and Power BI dashboards for financial and operational reporting.
- Built interactive visualizations, automated report refreshes, & integrated datasets to support executive decision-making.
- Apply data modeling and warehousing techniques to ensure accuracy, scalability, and performance, managing stakeholder requirements, aligning architecture with ERP/SCM workflows, and overseeing documentation.

Solution Consultant L1- Koerber Supply Chain, Dallas, Texas

September 2022- January 2025

- Delivered enhancements for Warehouse Management Systems (WMS) using SQL Server, ETL tools, and Advantage Architect, optimizing order flows and inventory accuracy.
- Supported Transportation Spend Optimization (TSO) initiatives: managed GL coding, pay run reporting, order match, and automation using SQL and Access.
- Collaborated with cross-functional teams to integrate data from OMS/WMS, improving financial transparency and reporting accuracy.
- Conducted data migration, system upgrades, and performance tuning to support client warehousing operations.

Consultant - enVista, Dallas, Texas

September 2021-September 2022

- Supported full lifecycle of Order Management System (OMS) implementation – requirements, design, development, UAT, and post-production support.
- Built and tested EDI integrations, trading partner connectivity, and data mapping to streamline order processing.
- Developed SQL scripts and reporting solutions to ensure compliance with client KPIs and operational efficiency.

Technical Associate- Botree Software International Pvt Ltd., Chennai, India

June 2017-June 2018

- Contributed to the development of Distributor Management System (DMS) modules for reporting, payment gateway integration, and automated schedulers.
- Designed and deployed MySQL-backed reports and conducted testing to ensure data accuracy.
- Gained hands-on experience with Java, Jenkins, JSF, and Linux for backend and deployment processes.

Project Intern- Botree Software International Pvt Ltd., Chennai, India

Jan 2017-March 2017

- Developed Sales Run Rate analytics project integrating distributor, retailer, and product data.
- Implemented BI dashboards with bar graph visualizations, improving tracking of sales targets vs. completions.

TECHNICAL SKILLS

Development & Programming: SQL, Transact-SQL, ETL Suites (Informatica, SAP, Ab Initio), Altova Mapforce, Advantage Architect, EDI Notepad, Java, HTML, XML, CSS

Databases & Data Warehousing: SQL Server, Oracle, MySQL, DB2, MS Access, SSMS, Dimensional Modeling

Data Integration & Management: ETL, Altova Mapforce, EDI Notepad, Advantage Architect, Ron's Editor, FileZilla, Virtual Terminal RF, MS Access, Excel

Business Intelligence & reporting tools: Power BI (Desktop & Services), Excel (Power Query, Power Pivot), Visualization (graphs, charts, pivoting data)

Cloud & Big Data: AWS, Azure, Snowflake, Databricks, Hadoop (research experience)

Testing & Collaboration Tools: Postman, Pulse, JIRA, Confluence, SharePoint, Visio, Azure Devops
